## ORDINARY RATES OF POSTAGE AND CONDITIONS OF TRANSMISSION.

*Inland Letters.**

1. The rates of postage when prepaid are as follows:—

| | | | |
|---|---|---|---|
| For a letter not above 1 oz. | | - - | 1d. |
| " | above 1 oz. but not above | 2 oz. | 1½d. |
| " | " 2 oz. " | 4 oz. | 2d. |
| " | " 4 oz. " | 6 oz. | 2½d. |
| " | " 6 oz. " | 8 oz. | 3d. |
| " | " 8 oz. " | 10 oz. | 3½d. |
| " | " 10 oz. " | 12 oz. | 4d. |

nd so on at the rate of ½d. for every additional 2 oz.

2. A letter posted unpaid is chargeable on delivery with double postage; if insufficiently prepaid, with double the deficiency.

3. No letter may be above 18 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from a government office.

All letters containing instruction to the Postmaster as to the re-direction of letters, should have written

* Inland letters, parcels, or other postal packets are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

on envelope "Re-direction of Letters;" such an intimation will cause the letters to be attended to at once.

*Inland Newspapers.*

1. The prepaid postage on every registered inland newspaper, whether posted singly or in a packet, is one halfpenny; but a packet containing two or more registered newspapers is not chargeable with a higher rate than would be chargeable on a book-packet of the same weight. For each transmission a fresh postage must be paid.

2. A newspaper or a packet of newspapers, posted unpaid, or insufficiently paid, is treated as an unpaid, or insufficiently paid book-packet of the same weight.

3. Any publication fulfilling the subjoined conditions can, upon payment of an annual fee of 5s., be registered at the General Post Office for circulation within the United Kingdom as a newspaper, as also for transmission to places abroad.

*a.* The publication must consist wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, with or without advertisements.

*b.* It must be printed and published in the United Kingdom, and in numbers at intervals of not more than seven days.

*c.* The full title and date of publication must be printed at the top of the first page, and the whole or part of the title and the date at the top of every subsequent page; and this regulation applies to "Tables of Contents" and "Indices."

*d.* A supplement must consist wholly or in great part of matter like that of a newspaper, or of advertisements, printed on paper, unstitched; or wholly or in part of engravings, prints, or lithographs illustrative of articles in the paper. It must in every case be published with the paper, and must have the title and date printed at the top of every page; or, if it consists of engravings, prints, or lithographs, at the top of every sheet or side.

4. The title of every newspaper should be exposed to view.

5. All unregistered newspapers are treated as book packets, and are subject to the rates and regulations of the Book Post. If they are sent in a packet with one or more registered newspapers, the whole packet should be prepaid at the book rate.

6. A newspaper, if posted in a cover, must have such cover open at both ends, so as to admit of the paper being easily withdrawn for examination.

7. The cover must not bear anything besides the title of the newspaper, and the name and address of the sender and of the addressee.*

8. A registered newspaper or packet of registered newspapers must not contain any enclosure except the relative supplement or supplements, and no newspaper must bear on any part of it words of the nature of a letter.

9. A packet of registered newspapers must not weigh above 14 lbs., or exceed 2 feet in length, 1 foot in width, or 1 in depth.

10. Any registered newspaper, or packet of registered newspapers in the case of which any of the five last-mentioned rules is infringed, is chargeable, if under 8 oz. in weight, as a letter packet; and if over 8 oz., it is transferred to the Parcel Post and charged a fine of 1d. in addition to any deficient parcel postage.

*Inland Book Post.*

1. The postage is one halfpenny for every 2 oz. or part of 2 oz. If unpaid it is charged double; and if posted partially prepaid, with double the deficiency.

2. The following may be sent by book post:—books and other literary publications, photographs, prints, and drawings on paper; and, generally, any paper or other substance in ordinary use for printing or writing upon, whether plain or bearing anything (not being a letter, or of the nature of a letter †) written, printed, or otherwise impressed thereon; and a book-packet may also contain anything necessary for the safe transmission of any of the before-mentioned articles, and legitimate binding or mounting (not consisting of glass or any brittle substance) when transmitted in the same packet with the article to which it belongs.

*Circulars—i.e.,* letters which, from internal evidence, appear to be intended for transmission in identical terms to several persons, and the whole or greater part of which is produced by means of ordinary type, engraving, lithography, or any other mechanical process—may also be sent by book post.

3. Book packets must not be closed in any way against examination. and the only covers admissible are such as are entirely open at both ends, so as to admit of the contents being easily withdrawn.‡ A book-packet may, however, be tied at the ends with string. §

4. No book-packet may exceed 5 lbs. in weight, 1 ft. 6 in. in length, 9 in. in width, or 6 in. in depth, unless it be sent to or from a Government Office.

5. A book-packet in the case of which either Rule 2 or Rule 3 is infringed is chargeable, if under 8 oz. in weight, as a letter packet, and if over 8 oz. it is transferred to the Parcel Post and charged a fine of 1d., in addition to any deficient parcel postage. When Rule 4 is infringed the packet is in all cases transferred to the Parcel Post.

6. When, owing to an unusually heavy influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with indiscriminately, book-packets may be kept back till the next despatch or delivery.

*Inland Post Cards.*

1. Official Post Cards impressed with a halfpenny stamp—double or reply Post Cards impressed with a halfpenny stamp on each portion of them—and private Cards impressed at the Office of Inland Revenue with halfpenny stamps—may be transmitted between places in the United Kingdom with letters printed or written upon the back. Adhesive stamps are not accepted in payment of the postage.

2. The front (or stamped) side is for the address only, in addition to the words printed thereon. There must be nothing else written, printed,

* In order that no failure may occur in the delivery of newspapers through the covers becoming detached, it is recommended that the addresses be written on exposed parts of the newspapers themselves as well as on the covers.

† Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

‡ It is the duty of Postmasters, whenever they have ground for suspecting an infringement of any of the above conditions, and occasionally even when there is no ground for suspicion, to open and examine book-packets posted at, or passing through, their office.

§ In order to secure the return of book-packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside;* thus "From ——— of ———."

or otherwise impressed on it or the stamp. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached except adhesive stamps in payment of additional postage or stamp duty; nor may the card be folded, cut, or otherwise altered. If any one of these rules be infringed, the card will be charged 1d. on delivery.

3. When, owing to an unusually heavy influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with indiscriminately, Post Cards (unless paid for and posted as late letters) may be kept back until the next despatch or delivery.

The conditions on which private cards are impressed with a halfpenny stamp can be ascertained at the Office of Inland Revenue.

It will be seen from the foregoing rules, that there is no legal way of sending a letter, other than a circular letter, through the post for a postage of a halfpenny, except by means of a post card.

It is sometimes supposed, because a post card may have a letter written or printed upon it, any card whatever, and even any piece of paper, if only it be open to inspection, may be sent through the post with a letter upon it for a postage of a halfpenny.

It is well, therefore, to explain for the guidance of the public—

1. That the letter-rate of postage must be prepaid for any communication of the nature of a letter, whether it be posted without a cover, or in an envelope, or in an open cover, unless a post card be used for the purpose, or unless the letter be a "circular letter."

2. That cards having merely a halfpenny adhesive stamp affixed to them must not bear any communication of the nature of a letter, unless it be a "circular letter."

Large numbers of letters, not being circular letters, are from time to time found in halfpenny wrappers, contrary to the express provisions of the book post; and as the officers of the department are instructed to surcharge all such letters with additional postage, it will save not only trouble to the Post Office but annoyance to the public, if care be taken always to pay letter postage for letters other than circular letters, unless they be written or printed on post cards.

## INLAND PATTERN AND SAMPLE POST.

*Bona-fide* Trade Patterns and Samples of Merchandise are sent between places in the United Kingdom at the following rates of postage:—

| | |
|---|---|
| For a packet not more than 4 oz. . . . | 1d. |
| Above 4 oz. but not more than 6 oz. . . | 1½d. |
| Above 6 oz. but not more than 8 oz. . . | 2d. |

No packet must exceed 8 oz. in weight. The limits of size are 12 in. by 8 in. by 4 in. If either of these conditions be infringed the packet will not be forwarded, but will be returned to the sender. A pattern packet posted wholly unpaid will be charged with double postage, and a packet insufficiently paid will be charged with double the deficiency.

Patterns and samples must be sent in wrappers (marked "Pattern Post" or "Sample Post") entirely open at both ends, and must be so packed that they may, to the satisfaction of the Postmaster-General or his Officers, be easily withdrawn for examination; but samples of seeds, flour, drugs, and such like articles, which cannot be sent in open covers, may be enclosed in boxes admitting of easy examination, or in bags of linen, or other like material, fastened at the neck. Closed bags, even if transparent, will not be allowed. In all cases where the requirements in regard to the mode of enclosure are not complied with, the packet will be charged with double the deficient postage, at the letter-rate.

It is obligatory that the name, address, and trade of the sender be in all cases printed or conspicuously stamped on the outside of the wrapper, or on the label. If this rule be not complied with, the packet will be charged double the deficient postage, at the letter-rate.

When returned to the trader or firm by whom they are originally sent, patterns will be allowed to pass at pattern-rates, if one of the following conditions be complied with:—

*a.* They may be returned in the original wrapper, the written address being carefully erased, and the words "Returned Patterns" or "Returned to," being prefixed to the printed or stamped address of the trader, in large and legible characters.

*b.* Or, a reversible wrapper may be used, having the trader's name, address, and trade, and the heading "Returned Patterns" printed or stamped on the reverse side.

*c.* Or, they may be returned in a fresh wrapper, bearing the printed or stamped address, &c., and heading above described.

The number, price, and private business-marks may be in writing, but no other writing will be allowed (except, of course, the address of the person to whom the patterns are sent, the words "Pattern Post," "Sample Post," "Returned Patterns," or "Returned to"). In case of the infringement of this rule, the packet is to be surcharged at the letter-rate.

No glass bottle, or glass in any form, may be sent; no explosive, liquid, semi-liquid, or greasy matter, nor powders of any kind which may stain or do other damage; nor any living creature.

Patterns of scissors, knives, razors, and other sharp articles, must be so packed and guarded as to completely prevent injury to the other contents of the mail bags, or to the officers employed, but the packets must at the same time admit of easy examination. When these requirements are not complied with, the packet will be stopped.

When necessary for securing the due transmission, or delivery, of letters, patterns and samples may be kept back for the succeeding despatch or delivery.

## INLAND PARCELS POST.

Parcels are accepted at all Post Offices for transmission by the Inland Parcels Post under the following general conditions in regard to weights, dimensions and rates of postage, viz.:—

| The rates of postage for Parcels are— | *s.* | *d.* |
|---|---|---|
| Not exceeding 1 lb. in weight, - - | 0 | 3 |
| Exceeding 1 lb., and not exceeding 2 lbs., - | 0 | 4½ |
| " 2 lbs., " 3 " - | 0 | 6 |
| " 3 " " 4 " - | 0 | 7½ |
| " 4 " " 5 " - | 0 | 9 |
| " 5 " " 6 " - | 0 | 10½ |
| " 6 " " 7 " - | 1 | 0 |
| " 7 " " 8 " - | 1 | 1½ |
| " 8 " " 9 " - | 1 | 3 |
| " 9 " " 10 " - | 1 | 4½ |
| " 10 " " 11 " - | 1 | 6 |

*Dimensions.*—The dimensions allowed for an Inland Postal Parcel are—Maximum length, 3 feet 6 inches; maximum length and girth combined, 6 feet.

*Examples.*—A parcel measuring 3 feet 6 inches in its longest dimensions may measure as much as 2 feet 6 inches in girth, *i.e.*, around its thickest part; or—a shorter parcel may be thicker; *e.g.* if measuring no more than 3 feet in length, it may measure as much as 3 feet in girth, *i.e.* around its thickest part.

*Delivery.*—Parcels for the city (including Crosshill, Hillhead, Partick, Pollokshields, and Springburn) are delivered at 7.0 a.m., 9.0 a.m. (Central Districts only), 11.0 a.m., 2.30 p.m., 5.30 p.m., and 7.30 p.m.

*Posting.*—Parcels must not be posted in a letter-box, but must be taken into a Post Office and handed over the counter. Care must be taken that every parcel bears a clear address.

*Insurance and Compensation for Loss and Damage of Parcels.*—The Postmaster-General will (not in consequence of any legal liability) under certain conditions give compensation for the loss and damage of parcels, as shown hereunder:—

(1) Where no fee, except postage, is paid, compensation will be given to an amount not exceeding - - - - - - - £1

(2) Where, in addition to the postage, an insurance fee of 1d. is paid, compensation will be given to an amount not exceeding - £5

(3) Where, in addition to the postage, an insurance fee of 2d. is paid, compensation will be given to an amount not exceeding - £10

In no case will a larger amount of compensation than £10 be paid. The compensation given in case of damage will be in proportion to that which would have been given had the parcel been lost.

A receipt, or certificate of posting, will be given for all insured parcels; but to secure compensation upon a parcel which it is not intended to insure, the sender should fill in a certificate of posting, which may be obtained at any Post Office, and present it with the parcel, to an officer of the Post Office, who will sign and return it.

Claims for compensation should be made within seven days after the date of posting.

*Parcels addressed to the Channel Islands* (Jersey, Guernsey, Alderney, Sark, and the adjacent inhabited islets) are received from the public under the same general conditions with regard to weight and size, and at the same rates of postage, as parcels for all other portions of the United Kingdom; but as the Channel Islands, in relation to the customs laws of the United Kingdom, are subject to the same restrictions as foreign countries, such parcels are liable to customs examination at the port of arrival, and the sender is required to make a declaration of contents upon a special form provided for the purpose at the office where the parcel may be posted.

*Parcels for the Isle of Man* are treated in all respects in the same way as parcels for places in the United Kingdom generally. They are liable to examination by the officers of customs; but the sender is not (as in the case of the Channel Islands) called upon to furnish a declaration of contents.

*Re-direction.*—Parcels are re-directed under the same regulations generally as letters and other postal packets, that is to say, a charge at the full rate of postage originally payable is made for every re-direction of a parcel unless it be re-directed by an officer of the Post Office to an address within the limits of the same free postal delivery as the address from which the re-direction is made. Parcels, like other postal packets, can only be re-directed by the Department upon receipt of an authority duly signed by the person to whom they are addressed.

A request for the re-direction of letters does not include the re-direction of parcels, for which it is necessary to hand in a separate instruction.

*Returned Parcels.*—In order to facilitate the return of parcels which cannot be delivered, it is most desirable that the name and address of the sender should appear on the outside of every parcel.

The prohibitions against the sending by post of anything indecent, or explosive, or of any living creature, or of any enclosure bearing an address different from that borne on the cover in which it is enclosed, are the same in the case of parcels as in the case of letters and other postal packets. Liquids, glass, china, crockery, eggs, fruit, fish, meat, butter, &c., which may not be sent by Letter Post, may be sent by Parcel Post, if packed with special care. Liquids or semi-liquids, such as jellies, pickles, paint, varnish, &c., must be put into bottles or cases securely stoppered. The edges or points of sharp instruments like axes, razors, needles, forks, &c., must be carefully protected. Any parcel containing eggs, or fragile, or perishable contents, should be conspicuously marked "Eggs," or "Fragile—with care," or "Perishable." Generally, the packing of a parcel must be such as to protect the parcel itself from damage, and other postal packets from being damaged in any way by it. Any parcel not so packed will, if tendered for transmission, be refused, and if discovered in transit, will be detained unless it can be properly packed, and sent forward.

## EXCEPTIONAL RATES OF POSTAGE.

(1) Petitions and addresses to the Queen are exempt from postage. Petitions to members of either House so addressed are also exempt, provided they do not exceed 2 lbs. in weight, and, if in covers, are in open covers.

(2) Printed Votes or Proceedings of the Imperial Parliament, in open covers, having the words "Parliamentary Proceedings" written or printed thereon, are allowed to exceed the limits of size and weight prescribed for book-packets; and, even if wholly or partly unpaid, they are liable only to the prepaid book rate of ½d for every 2 oz.

## REGULATIONS AS TO PREPAYMENT, REGISTRATION, &c.

*Modes of prepayment.*

The prepayment of inland letters, newspapers, and book packets can only be effected by means of postage stamps—except that at the Chief Office, Glasgow, *inland letters* and *book packets* may be prepaid in money, provided the amount paid be never less than £5, and the letters and book packets be tied in bundles representing a postage of 5s. each, with the addresses arranged in the same direction. The prepayment, however, cannot be made partly in money and partly with stamps.

*Registration.*

1. The fee for registering a letter, newspaper, or book-packet passing through the post between any two places in the United Kingdom is twopence.

2. No article addressed to initials or to a fictitious name can be registered, unless it be addressed to the *care of a* person or firm.

3. Every article presented for registration must be enclosed in a strong cover, securely fastened.

4. Registered articles must be prepaid as regards both postage and registration fee; except official letters for Government Offices in London, Dublin, or Edinburgh, which may be registered on prepayment, in stamps, of the registration fee only.

5. Every article to be registered must be given to an agent of the Post Office, and a receipt obtained for it, and it should on no account be dropped into a letter-box. If, contrary to this rule, an article marked "Registered" be dropped into the letter box it will, *if directed to any place in the United Kingdom*, be liable to a registration fee of 8*d*. (less any amount prepaid for registration) instead of the ordinary fee of 2*d*.

6. At all Post Offices the latest time for posting registered articles on payment of the ordinary fee is shown on the notice exhibited in the Post Office window. Usually this time is fixed at half an hour before the closing of the Letter Box; but at the Head Office articles bearing a late fee of fourpence, in addition to the ordinary registration fee, may be registered until the letter-box is closed.

7. When several letters are sent by the same person for registration they should be accompanied with a list (in duplicate) of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer.

8. The loss of a registered article, as it can be traced through its whole course, is a rare occurrence. Nevertheless, large sums of money or other articles of great value should not be sent through the post, even if registered; as the machinery of the Department is not arranged with a view to such transmissions. If sent *unregistered* valuable articles are exposed to risk, and offer a temptation which ought not to be afforded.

Inland letters or packets which contain coin, watches, or jewellery, *if posted without registration*, are treated as *registered*, and charged on delivery with a *registration fee* of eightpence in addition to the ordinary postage; and any such letters or packets which cannot be registered in time to be forwarded by the Mail for which they are posted, are detained for the next despatch.

9. By law the Postmaster General is not responsible for the safe delivery of registered articles, but subject to certain rules, which may be ascertained at any Post Office, he will (voluntarily and as an act of grace) give compensation for the loss and damage of Inland registered letters and other registered postal packets. The amount of compensation varies according to the fee paid, but in no case can it exceed £10.

10. No town postman is allowed to take a letter to be registered; but rural postmen will take letters for registration on their outward and inward walks, whenever it is practicable for them to do so.

*Re-direction.*

1. Every inland re-directed letter, post-card, or other postal packet, is liable to an additional postage (at the prepaid rate) for each re-direction, unless both the original and the second address be within the delivery of the same Post Office, or Sub-Office, or rural walk, and the re-direction be made by an Officer of the Post Office.

*Exception.*—No charge for re-direction is made on Government letters. (See also par. 6.)

2. An inland registered letter, when re-directed to any place within the United Kingdom, is only liable to the same additional charge as an ordinary letter.

3. If an inland registered letter, when re-directed, instead of being taken back to the Post Office to be dealt with as a registered letter, is dropped into the letter box as an ordinary letter (the word "registered" not having been erased, or having been erased in pencil only), it becomes liable to the same treatment as any other letter which is marked "registered" and found in the letter box, and must be surcharged with a registration fee of eightpence, minus the value of any stamps already affixed for the registration.

4. Notices of removal, and applications for letters to be re-directed must, in all cases, be duly signed by the *persons to whom the letters are addressed*, and in provincial towns they must be sent to the local Postmaster. Printed forms of notice can be obtained at the Head Office on application. A separate notice should be filled up if it is desired that parcels may be re-directed.

5. A Postmaster is not bound to re-direct letters for a person temporarily leaving his home, and not having a private bag or box, unless the house be left uninhabited.

6. Letters addressed to non-commissioned officers, schoolmasters in the army, schoolmistresses in the army, private soldiers, and schoolmasters and seamen in the navy, re-directed from one part of the United Kingdom to another, or from the United Kingdom to a place abroad (when the removal is on service), provided the original postage is prepaid and the letters do not exceed half an ounce in weight, will be delivered to them without any charge for re-direction. Book packets, newspapers, and parcels, however, are liable to the ordinary charges for re-direction.

*Collection.*

Arrangements are made for the collection by postmen of ordinary letters, &c. (not registered letters or articles intended for transmission by parcel post) from private letter boxes of approved pattern at hotels, business premises, offices, &c.

The charge for this accommodation is as follows:—

For one collection daily from a box on the ground floor, £3 a year.

For each daily collection above one an additional £1 a year.

For boxes above or below the ground floor an additional £1 a year in respect of every floor the collector has to ascend or descend to make the collections.

For each additional person or firm beyond one making use of the box, £1 a year.

Pursuant to the terms of section 19 of the Post Office (Protection) Act, 1884, the following notice will be affixed to these boxes, viz.:—

"A Postal packet put into this box will not for the purpose of any enactment, law, or contract, whereby the due posting of a Postal packet is evidence of the receipt thereof by the addressee, be deemed to have been duly posted."

Applications in regard to the collections from private posting boxes should be made to the Postmaster.

*Delivery.*

1. Postmen are prohibited from distributing any letters, newspapers, &c., except such as have passed through a Post Office.

2. No person living within an official delivery, unless he rent a private box, can claim to have his letters or parcels delivered at the office window if a delivery by postmen or a despatch by messenger is about to take place; but letters or parcels which arrive by a mail after which there is no immediate delivery by postmen, may be obtained by any person on application at the office window, so long as the office is open for delivery.

3. When letters or parcels directed to a Post Office for persons who reside within a free delivery from such office, but who have no private box, arrive by a mail for which there is a delivery from house to house, a Postmaster may refuse to deliver them at the window, and may send them out by the postmen, except such as are addressed to the military in barracks.

4. No person can have a private box unless he is willing to pay the appointed fee. The fee is at the rate of £3 per annum, payable in advance. Special arrangements are made for locked bags to and from the renters of private boxes and the Post Office.

A Returned Letter Office is established in Glasgow, and all undeliverable letters addressed to Glasgow and its sub-offices are disposed of there.

On reaching the Returned Letter Office a letter originating in the United Kingdom is at once opened, and if found to contain the writer's address is returned to him. If it does not contain either the writer's address or an article of value the letter is destroyed. Any letter or packet which on being opened is found to contain value is, for its safety, recorded and returned registered and, unless registered at the time of posting, the registration fee of 2d. is charged to the sender. Letters bearing the sender's name and address impressed or printed on the envelopes are returned unopened.

After being retained for periods varying from one week to one month, foreign and colonial letters are, with few exceptions, returned unopened to the countries from which they were received.

*Conveyance of Single Post Letters by Railway.*

Single Inland Post Letters, *not exceeding one ounce in weight*, are now, under an agreement with the Postmaster General, accepted by certain Railway Companies to be sent by next available train or steamship, either to be called for at the station of address, or to be transferred there to the nearest post office letter box for delivery by postman. In the former case, the letter should be addressed to the Parcel Office of the station to be called for; and in the latter, the words "To be posted on arrival" should be written below the name of the station. Such letters must be taken to a passenger station and tendered at the Parcel Booking Office, or, if that office be closed, to the Passenger Booking Office. The total cost of transmission of every letter is 3d., of which 1d. is paid by means of an ordinary postage stamp affixed to the cover, the remaining 2d. being handed in cash to the railway servant. A letter which contains, or appears to contain, a watch, coin, or jewelry, or any article or thing which, if sent by post, would require to be registered, or any article prohibited from transmission by Inland Letter Post cannot be sent as a railway letter. If the case requires it, a railway letter will be passed on from Company to Company in succession to the station of address, provided the latter is on the line of a Company party to the arrangement.

*Stamps (Postage and Inland Revenue).*

At every Money Order Office the Postmaster is required to keep for sale to the public a sufficient stock of the different postage stamps in use; envelopes with an embossed penny postage stamp; registered letter envelopes; newspaper wrappers with impressed halfpenny and penny postage stamps; and inland and foreign post cards.

Postage Stamps,* which are available for the prepayment of telegrams, are of the respective values of ½d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 10d., 1s., 2s. 6d., 5s., 10s., and £1.

At Post Offices, which are not Money Order Offices, sub-postmasters are required to keep ½d. and 1d. stamps, post cards, and registered letter envelopes only; but they are bound, on application, to procure postage stamps of other values, embossed postage envelopes, and newspaper wrappers.

Impressed Bill Stamps of the respective values of 1d., 2d., 3d., 6d, 9d., and 1s., are for sale at the Chief Office, Branches, &c.

Dog, Gun, and private Brewers' Licenses are issued at all Money Order Offices.

Licenses for Gamekeepers, Game, Carriage and Civil Service Fee Stamps, Patent, Design, and Trade Mark Stamps and Forms, can be obtained at the Head Office.

Every rural messenger is authorized to sell penny postage stamps and registered letter envelopes, or (if he have no stamps in his possession) he must receive the postage in money, and on his arrival at the Post Office affix stamps carefully to the letters.

Payment of postage cannot be made by means of imperfect postage stamps; or of embossed or impressed stamps cut out from the envelopes, cards, wrappers, or telegraph message forms (even although the stamps have not been before used or sent by post). Applications for allowance on spoilt postage stamps, embossed envelopes, post cards, or newspaper wrappers, which have not passed through the post, should be made to the Distributor of Stamps, Inland Revenue. Such applications, however, can only be entertained if the stamps or other articles have been spoilt or become useless within the period of six months preceding the date of application. In the case of envelopes, cards, or wrappers, the applications must be accompanied by these articles intact; as no allowance can be granted on the embossed or impressed stamps if cut therefrom.

*Postage Stamps purchased from the Public.*

All postmasters in the United Kingdom at whose offices money order business is transacted, are permitted, though not compelled, to purchase postage stamps from the public (provided the stamps be not soiled or otherwise damaged), at a charge of 2½ per cent.; the charge, however, never being less than one halfpenny. Under this arrangement the payments are as follows:—

| | | | | The full price minus |
|---|---|---|---|---|
| For stamps not exceeding | 1s. 8d. | in value, | | ½d. |
| Above 1s. 8d., | and not exceeding | 3s. 4d., | | 1d. |
| " 3s. 4d., | " | " | 5s. | 1½d. |
| " 5s., | " | " | 6s. 8d., | 2d. |
| " 6s. 8d., | " | " | 8s. 4d., | 2½d. |

and so on.

To prevent the temptation to steal stamps attached to letters, which might be afforded by facilities for selling them, single stamps cannot be purchased. They must in all cases be presented in strips of not less than two.

In consequence of representations made to the Post Office by various firms, that there is reason to believe that their postage stamps were purloined by persons in their employ, the Department has recommended that the initials of firms, &c., be perforated through the stamps by means of a machine devised for the purpose, and Postmasters have been instructed not to purchase such stamps. The perfora-

tion of the stamps on post cards, newspaper wrappers, and embossed envelopes with initials is also not objected to.

Paper and cardboard taken by the public to the Inland Revenue Office can be impressed with postage stamps under conditions which may be learnt on application at that office.

*Articles not allowed to be sent by Post.*

1. No indecent or obscene print, painting, photograph, engraving, book or card, or any article having thereon, or on the cover thereof, any words, marks, or designs of an indecent, obscene, or grossly offensive character can be sent by post, nor can any explosive, dangerous, noxious, or deleterious substance, nor any filth, nor any sharp instrument, not properly protected, nor any living creature, nor anything likely to injure the contents of the mails or any officer of the Post Office. Liquids and glass may not be sent except by Parcel Post.

2. No postal packet may contain another packet, whether of the same or of a different description, addressed to a different person at a different address, unless a separate postage is paid for each packet.

## MISCELLANEOUS REGULATIONS AND SUGGESTIONS.

1. The Post Office is not, by law, responsible for any loss or inconvenience which may arise from the non-delivery, mis-sending, or mis-delivery of any letter, book, or other postal packet, except in the case of parcels and registered packets.

2. Postal packets which are likely to suffer from great pressure should be placed in strong covers.

3. No information can be given respecting letters or any other postal packets except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public. A Postmaster may, however, give an address if he has no reason to believe that the person whose address it is would disapprove of his doing so.

4. Provision having been made, by means of the Post Office Guide and the Glasgow Local Guide, to supply full and authentic information on all postal matters, the public should abstain, as much as possible, from applying for such information to the officers of the department. For any error in a reply to a *verbal* application the Department does not hold itself responsible.

5. Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination, according to the address, even though a request to such effect be written thereon.

6. Postmasters are not bound to give change, nor are they authorized to demand change; and when money is paid at a Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

7. Postmasters are not bound to weigh any letters or other packets except parcels for the public, but they *may* do so if their duty be not thereby impeded.

8. If a letter be forwarded under cover to any Postmaster, with a request that he will re-post it at his office, the letter, on being re-posted, will be endorsed with the words "posted at ———, under cover to the Postmaster of ———."

9. Every address should be legible and complete. When a letter is sent to a Post Town the last word in the address should be the name of that town, except when the town is but little known, or when there are two Post Towns of the same name, or when the name of the town is identical with or very like the name of some foreign town or country. In such cases the name of the County should be added. Thus, the last part of the address of a letter to Newport in Monmouthshire should be—

"Newport,
Monmouthshire."

10. When a letter is sent to a place where there is only a Sub-office, the name of the Head Office should be given, unless the office is a Railway Sub-Office.

11. In the case of letters for places abroad, the name of the *country* as well as the town should be given in full, and should be the last word in the address.

12. Letters for well-known firms and persons in Glasgow are sometimes addressed "Glasgow" only; but this practice often causes delay in their delivery. Letters for strangers or for persons whose address is not known at the Chief Office, simply addressed "Glasgow" (and not "Post Office," or "Poste Restante, Glasgow,") *are not delivered from the Poste Restante*, but are sent to the Returned Letter Office.

13. A letter addressed to a Post Office to be called for is retained one month; and if not called for by the end of that time, is sent to the Returned Letter Office to be sent back to the writer. But if the letter be addressed to a Post Office at a seaport town for a person on board a ship expected to arrive at that port, it is kept two months.

14. Letters or other postal packets addressed to initials or to fictitious names at Post Offices are not taken in, but are at once sent to the Returned Letter Office.

15. All letters addressed to club houses, hotels, and other places where letters are received to be called for, should be returned to the Post Office as soon as it has become evident that they will not be called for.

16. Every letter should contain the full address of the writer, in order to ensure its return if undelivered.

17. To facilitate the delivery of letters, a letter-box should be affixed to every house-door.

18. Circulars, before being posted, should be tied in bundles with all the addresses in one direction. Correspondence posted early in the day not only obtains in many cases the advantage of an earlier delivery, but frequently avoids the risk of delay from irregularity in the working of the trains.

19. Any person who, on receiving a surcharged letter, has reason to think that it has been wrongly taxed, should take it, before it has been opened, to the Post Office to be weighed, and if it then appear that it does not turn the scale, should have its exact weight certified in writing. This will in most cases be sufficient evidence that the letter has been erroneously charged; though sometimes, owing to the paper being damp when it is posted, a packet weighs more then than when it is delivered; and it is the weight at the time of posting that determines the charge.

20. When complaint is made of a letter or other postal packet being lost, missent, or delayed, information, as precise as possible, regarding all the facts

of the case should be furnished, together with any documents that may throw light upon the matter. The day and hour at which the letter, &c., was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps.

21. Neither money nor any other article of considerable value ought to be sent through the post, except by means of a money or postal order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes.

22. Whenever Bank Notes are sent by post, even in registered letters, they should be cut in halves, and the second halves should not be posted till it has been ascertained that the first halves have been received; and further, in order to afford the means of identification, a memorandum should always be made of the number of each bank note.

23. Except where the Surveyor may deem a longer interval necessary, late letters,* &c., are received till within five minutes of the despatch of the mail; although no office is kept open merely for this purpose after 10 o'clock at night.

24. No late letters, &c. (except Government letters) are forwarded by the mail preparing for despatch unless prepaid, and that by stamps, including both the ordinary postage and the late letter fee. The late fee payable upon Post Cards is the same as upon letters.

25. Letter boxes for the receipt of late letters bearing the extra stamp of ½d. are affixed to all Mail trains in which travelling post offices or sorting carriages are run.

26. *Sunday.*—During the time the office is open on Sunday the public are allowed to purchase postage stamps and to have letters registered (viz.) from *eight* to *nine* in the morning; but no Money Order, Savings Bank, Insurance, or Annuity business is transacted on Sunday.

27. At no provincial town in England or Ireland is there more than one delivery on Sunday, Christmas Day, or Good Friday; nor in Scotland on Sunday or the Spring and Autumn holidays.

*Penalties for sending Letters otherwise than through the Post.*

28. Any person conveying (otherwise than by the Post) a letter not exempted from the exclusive privilege of the postmaster-general incurs, by law, a penalty of £5 for every letter, and £100 for every week the practice is continued. The sender also is liable to a penalty of £5 for every letter.

29. *Exceptions.*—The exclusive privilege is confined strictly to letters, and does not therefore extend to newspapers, books, or money; any of which may be legally conveyed by other means. The following kinds of letters also need not be sent through the post:—

1st. Letters sent by a private friend, to be delivered by such friend to the person to whom they shall be directed.

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings or returns thereof, issuing out of a court of justice.

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat).

4th. Letters of merchants, owners of vessels of merchandise, or of the cargo or loading therein, sent by such vessels of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise.

5th. Letters concerning goods or merchandise sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters.

30. No person, however, is authorized to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

2. Prepayment is compulsory in those cases where the letter "*c*" is prefixed to the rates of postage; In some countries (*a*) an additional postage (which cannot be prepaid) is charged on delivery.

3. Letters posted unpaid, or insufficiently paid for, to any country where prepayment is compulsory, are returned to the writers.

4. Unpaid letters to or from countries in the Postal Union or Australia, New Zealand, Cape Colony, Natal, Bechuanaland, Orange Free State, Transvaal, and St. Helena, are charged double the prepaid rate, and those partially prepaid are charged with double the deficiency.

5. *Routes.*—Letters not specially directed to go by a particular route are forwarded by the first mail despatched.

* "Late Letters" are such as are posted after the ordinary time, and cannot be sent forward by the mail then in preparation, unless extra payment be made.

6. No letter for a Colony or Foreign Country may exceed 2 feet in length or 1 foot in width or depth.

7. The addresses of letters for Russia should be very plainly written; the name of the town, and of the province in which it is situated, should also be added in English, French, or German.

*Foreign and Colonial Newspapers.*

1. The rates of postage, *which must be prepaid*, to foreign countries and the colonies on newspapers registered for transmission abroad will be found in the Table of Foreign and Colonial Postage.

2. The conditions of registration for transmission abroad are the same as those for inland transmission; excepting that for foreign transmission a newspaper may be published at intervals *of thirty-one days*. Moreover, prices current and market reports (but not private price lists or trade catalogues) may be registered as newspapers for foreign transmission, provided that they be published at intervals not exceeding thirty-one days.

3. All publications registered for transmission abroad *must be posted within eight days from the day of publication*, including that day; and any newspaper posted more than eight days after the date of publication, as well as any unregistered publication, must be prepaid at the book rate of postage.

4. The collected numbers issued during the month of a weekly or fortnightly publication are not allowed to pass as a monthly publication.

5. Newspapers, whether posted in covers or without covers, must not be fastened so as to prevent easy withdrawal for examination.

6. Every newspaper must be so folded as to admit of the title being readily inspected.

7. No newspaper, whether posted singly or in a packet, may contain any enclosure except the supplement or supplements belonging to it.

8. There must be no writing or other marks on a newspaper sent abroad but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, the *printed* name and address of the publisher or vendor who sends it, and words indicating the date on which the subscription to the newspaper will end.

9. No packet of newspapers for countries of the Postal Union may exceed 18 inches in length or one foot in width or depth, or for other places abroad 2 feet in length or one foot in width or depth. The limits of weight are 4 lbs. for countries of the Postal Union, and 5 lbs. in all other cases.

10. An internal tax of two kreuzer, which is not a postal charge, is made by the Austro-Hungarian Government on the delivery of all newspapers reaching the Empire from other countries.

*Foreign and Colonial Book Post.*

1. Articles which may be sent to places abroad under the Book Post Regulations consist of two classes, as follows:—

1st. Commercial Papers, under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal (and whether written or printed on stamped or unstamped paper), Way Bills, Bills of Lading, Invoices, and other documents of a mercantile character, documents of Insurance and other public Companies, all kinds of manuscript Music, the manuscript of Books and other literary works, and other papers of a similar description.

2nd. Printed Papers, including periodical works, books (stitched or bound), pamphlets, sheets of music (printed), visiting cards, address cards, proofs of printing (with or without the manuscript relating thereto), engravings, photographs, pictures, drawings, papers impressed for the use of the blind, or cardboard drawing models stamped in relief (except for Russia or Sweden), plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, lithographed, or autographed, and in general all impressions or copies obtained upon paper, parchment, or card-board by means of printing, lithography, autography, or any other mechanical process easy to recognise, except the copying press, and the typewriter, and anything usually attached or appurtenant to any of the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission by post which shall be contained in the same packet; also printed, engraved, or lithographed circulars, notwithstanding that such circulars may be letters or communications in the nature of a letter. Stamps for prepayment, whether obliterated or not, and all printed articles constituting the sign of monetary value, are, however, excluded from transmission by Book Post to countries of the Postal Union.

The two classes are subject to the same rates of postage, except that when addressed to countries in the Postal Union the minimum charge for a packet of commercial papers, however small the weight, is 2½d. in every case. If there be any mixture of the two in the same packet the whole packet is treated as commercial papers.

2. A book packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover open at both ends, so as to admit of the contents being easily withdrawn for examination; otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string, but the string must be easy to unfasten.

3. *Dimensions.*—The limits of size for a packet addressed to countries of the Postal Union are 18 inches in length and one foot in width or depth, and for packets addressed to other places abroad 24 inches in length and 12 inches in width or depth. Limits of weight are, 4 lbs. to countries of the Postal Union; 3 lbs. for New South Wales, Queensland, and Fiji; and 5 lbs. in all other cases.

4. *Rates of Postage.*—The rates of postage, which must be prepaid on packets to places abroad, are given in the Table of Foreign and Colonial Postage.

5. All books and printed matter imported into the United States through the post, however small the value, are subject to a duty of 25 per cent. of that value. The exemption from Customs duties hitherto accorded to books not exceeding one dollar in value is withdrawn. The undermentioned articles are still exempt from Customs duties:—1st. Newspapers and periodicals already exempt from duty; 2nd. Photographs and printed papers, other than books, received in the United States in such small quantities

as to suggest that they are intended for personal use and not for sale.

6. Books and periodicals addressed to the Republic of Colombia are liable to Customs duties unless intended for the personal use of the addressees. Books for Uruguay, whether bound or sewn, are liable to Customs duties, except when the whole value of those sent to any one addressee is less than 100 francs (£4).

*Foreign and Colonial Pattern and Sample Post.*

1. The Pattern and Sample Post to foreign countries and the colonies generally is restricted to *bonâ fide trade patterns or samples of merchandise.* Packets containing goods for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, cannot be forwarded by Pattern Post.

2. No article liable to custom duties can be sent as a sample or pattern.

3. The rates of postage, which must be prepaid, will be found in the Tables of Foreign Postage.

4. Patterns or samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination.* But samples of seeds, drugs, and such like articles, which cannot be sent in covers of this kind, may be posted enclosed in boxes, or in bags of linen or other material, fastened in such a manner that they may be readily opened.

5. There must be no writing or printing upon or in any sample packet for non-Union countries, except the address of the person for whom it is intended, the address of the sender, a trade mark or number, the price of the articles, the weight or size, and the quantity to be disposed of, or such as may be necessary to indicate the place of origin or the nature of the merchandise. A sample packet for a country in the Postal Union may contain, besides these particulars, any Printed Papers; and, if the rate applicable to Commercial Papers be paid, it may also contain Commercial Papers.

6. Samples of saleable value must not be sent to any foreign country, or to any of the British Possessions which are comprised in the Postal Union. Samples of eider down, raw or thread silk, woollen or goats' hair thread, vanilla, or isinglass, are considered to fall under this rule if they weigh more than three ounces.

7. Such articles as scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags and to the officers of the Post Office, while at the same time they may be easily examined, may be sent as samples to places abroad. Liquids, glass, anything of a greasy nature, explosives, indigo, and powders of all kinds are absolutely prohibited.

8. The limit of weight is not the same to all countries. For particulars, see heading of the Table of Foreign and Colonial Postage.

9. A packet of patterns or samples sent to any place comprised in the Postal Union (except Belgium, France, Greece, Italy, Japan, Luxemburg, Portugal, Switzerland via France, the Argentine Republic or the United States), must not exceed 8 inches in length, 4 inches in width, or 2 inches in depth. The limit to Belgium, France, Greece, Italy, Japan, Luxemburg, Portugal, Switzerland via France, the Argentine Republic or the United States is 12 inches in length, 8 inches in width, and 4 inches in depth. The size of a packet for a non-Union country or colony is limited to 24 inches in length and 12 inches in width or depth.

*Foreign Post Cards.*

Single and Reply Post Cards may be sent to all the countries comprised in the Postal Union.

Single Cards are issued with impressed stamps of 1d., 1½d., and 2d., and Reply Cards bearing stamps of the values of 1d., 1½d., and 2d. on each half.

Inland Post Cards are also transmissible if the additional postage required is supplied by postage stamps being affixed.

The regulations relating to Inland Post Cards apply generally to Cards posted for places abroad, except that the latter, when these regulations are infringed, are not forwarded.

*Letters for Non-Commissioned Officers, Soldiers, and Seamen in Her Majesty's Service.*

1. Non-commissioned officers, schoolmasters, schoolmistresses, private soldiers, seamen, writers in Her Majesty's Navy, whether serving on sea or land, in a British Possession or Foreign Country, the Cape Mounted Rifles, and enrolled pensioners in Canada, can send and receive prepaid letters not exceeding the weight of half an ounce for a postage of 1d.; but if any such letters have to pass through a foreign country they are subject, in addition, to the foreign postage, whatever that may be. Thus the postage to the undermentioned countries (including the British charge of one penny) is as follows:—

| To or from— | s. | d. |
|---|---|---|
| Australia,† Ceylon,† Hong Kong,† India,† &c., *viâ Brindisi* . . | 0 | 2 |
| Mauritius, by *French Packet* . | 0 | 3 |

| Chili, Peru, or any other place in the South Pacific, *viâ Southampton and Panama* . . . . . | 0 | 2 |
| Bahamas, *viâ New York*, . . | 0 | 2 |

When sent by private ship, such letters are also liable to the Captain's gratuity of one halfpenny for countries to which the ordinary postage is 2½d., or of one penny in other cases.

2. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, and must not be either a commissioned officer or warrant officer in the army, or assistant engineer, gunner, boatswain, or carpenter in the navy; the privilege not extending to these officers.

3. The name of the soldier or seaman, with his class or description, must appear in the direction; and the officer having the command must sign his

* In order to secure the return of Pattern Packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside;* thus, "From ———— of ————."

† The postage to these countries, if posted in time to leave London on Thursday morning, is 1d. only.

‡ The postage to these countries, if posted in time to leave London on Friday morning, is 1d. only.

4. If the letter be posted in the United Kingdom for a place abroad, unpaid or insufficiently paid, or if the class or description of the soldier or seaman be not written in the address, it will be detained and returned to the writer for payment of the postage.

*Letters, &c, by Private Ships.*

1. Book Packets and Packets of Patterns may be sent by Private Ship for the same postage as by Mail Packets.

2. Newspapers by Private Ships must be prepaid 1d. each per 4 ozs.

3. Letters intended to be sent by a private ship must be addressed "By Private Ship," and if by a particular vessel the name of the ship must be added. The postage of a letter by a Private Ship is as follows:—

| Country. | For a prepaid letter. | Fine on letters not wholly prepaid. |
|---|---|---|
| | Per ½ oz. | |
| * Ascension, . . . | 2½d. | ... |
| *Australia, . . . | 2½d. | ... |
| Cape Colony, . . | 2½d. | Double the deficiency. |
| Natal, . . . . | | |
| St. Helena, . . . | 2½d. | Double the deficiency. |
| Countries comprised in the Postal Union, except Ceylon, Hong Kong, India, Straits Settlements, . . . | Same as by Mail Packet. | ... |
| * All other Countries, . | 6d. | ... |

4. Letters cannot be sent unpaid to the Countries marked thus (*). The postage for letters weighing more than ½ oz. advances in the same manner as that for letters sent by mail packets.

*Registration.*

1. The fee chargeable for registration to places abroad will be found in the column headed "Registration fee" in the Table of Foreign and Colonial postage. To some countries, as shown in that Table, an article can be registered only to the port of arrival; it being left, in those cases, to the postal authorities of the country to which that port belongs to continue the registration or not as they may think proper. To a few countries, as also shown in the Table, there is no arrangement whatever for registration.

2. Registration is applicable equally to letters, post-cards, newspapers, book-packets, and patterns addressed to places abroad, except in the cases specially mentioned in the tables of Colonial and Foreign postage.

3. The sender of a registered article addressed to any Foreign Country or British Colony in the Postal Union may obtain an acknowledgment of its due receipt by the addressee on paying a fee of 2½d., as well as the registration fee, in advance at the time of registration.

4. No article addressed to initials or to a fictitious name can be registered. The prohibition, however, does not extend to articles addressed to the care of a person or firm.

5. Every article presented for registration must be enclosed in a strong envelope, securely fastened.

6. It is prohibited to send to a country of the Postal Union any registered article marked on the outside with the declared value of the contents; and Postmasters must therefore refuse to receive articles which are so marked.

7. Registered articles must be prepaid as regards both postage and registration fee.

8. Every article to be registered must be given to an agent of the Post Office, and a receipt obtained for it; and it should on no account be dropped into a letter box.

9. As it is prohibited to send coin, jewellery, or precious articles through the post to countries of the Postal Union, no letters or packets addressed to those countries and containing any such articles can be accepted for registration.

10. Letters or packets containing coin for any of the British Colonies not in the Postal Union can be registered, and if they are posted without being registered, they are treated in the same manner as inland letters under similar circumstances.

11. The several Postal Administrations of the countries belonging to the Postal Union undertake to pay an indemnity of fifty francs in the event of its being proved to their satisfaction that a registered letter itself has been lost whilst in their custody, but no question of compensation is entertained by them for, or in respect of, the loss of the enclosure of any such letter.

*Prohibited articles besides those mentioned at page* 10.—The transmission by post of gold, silver, precious stones, jewellery, &c., is prohibited in all countries of the Postal Union.

In Luxemburg the registration of such packets is compulsory, and everything of value, except coin or bullion, is liable to duty.

In the undermentioned Colonies, viz.—Bermuda, Ceylon, Falkland Islands, Gambia, Gibraltar, Hong Kong, Labuan, Lagos, Malta, Montserrat, Newfoundland, St. Vincent, Sierra Leone, and Straits Settlements, articles of value are transmissible, and, with the exception of jewellery addressed to Ceylon, Newfoundland, and St. Vincent, are exempt from customs duty. Their transmission is also permitted in Cyprus, Grenada, and Jamaica; but they are

liable to customs duty, with the exception of gold and specie, in Cyprus; gold, silver, and diamonds in Grenada; and diamonds in Jamaica.

In the Dutch East Indies articles of value are admissible, except wrought gold and silver, but the packets containing them must be registered.

Special prohibitions in Italy and United States of America.—Anything relating to foreign lotteries.

In the Cape of Good Hope and Queensland.—Jewellery and precious articles, if dutiable, are liable to detention until the duty is paid.

In Spain and Victoria.—Jewellery is dutiable, and liable to confiscation.

Russia.—Printed matter in the Russian language is prohibited; and even such trifling articles as photographs and Christmas cards are liable to duty, though a single photograph may be sent to Russia by post. All letters or packets containing prohibited or dutiable articles of any kind, however small the value, are confiscated in that country.

*Letters for Passengers on Board Mail Packets.*

1. Letters for passengers on board the packets for America calling at Queenstown, the packets for Canada calling at Londonderry, the packets for the Cape, &c., and the Royal Mail Company's packets for Brazil, &c., calling at Lisbon, the Peninsular and Oriental packets from Brindisi with the mails for Egypt, India, Australia, China, &c., and the Orient packets from Naples with the mails for Australia, may be posted in any part of the United Kingdom up to the time at which ordinary *registered* letters to go by the same packets are received. They must be *registered*, the postage and registration fee must be fully prepaid, and they must be addressed to the care of the Commander of the packet.

2. The letters should be addressed thus: "Mr. ———, on board the mail packet for ———, at Queenstown, Londonderry, Lisbon, Brindisi, or Naples, care of the Commander of the packet."

*Re-direction.*

1. Letters, &c., sent to or received from a country of the Postal Union, and afterwards re-directed to any place in the United Kingdom, or to another country within the Union, are not liable to any additional charge, nor, if registered, to an additional fee for registration; such, however, as have been in the first instance addressed to a place in the country where they were posted, are chargeable on re-direction with the same postage, less the sum prepaid, which would have been charged had they been addressed in the first instance to the place of their ultimate delivery, but, if registered, without additional fee.

2. Letters, &c., addressed from one part of the United Kingdom to another, and then re-directed to a country not in the Postal Union, are liable to an additional Foreign or Colonial rate, and, if registered, to an additional fee for registration.

3. Letters, &c., received here from a country not in the Postal Union, and re-directed to another country not in the Postal Union, are liable to an additional Foreign or Colonial rate, and, if registered, to an additional fee: if re-directed to some place within the United Kingdom, they are liable to an additional inland rate; but, if re-directed to any country of the Postal Union to which the postage from the country of origin is not higher than to this country, they are forwarded free of charge, and in neither case is an additional registration fee required.

4. Letters, &c., received from any country of the Postal Union, and re-directed to a country not in the Postal Union, are liable to an additional Foreign or Colonial rate, and, if registered, to an additional fee.

5. Letters posted for commissioned officers in the army or navy on actual service are delivered without any charge for re-direction. The regulations respecting similar letters for non-commissioned officers and private soldiers and seamen will be found at page 7.

6. No charge for re-direction is made on newspapers from any place abroad unless they have been opened, in which case they are liable to postage as books.

7. Letters, &c., returned to the senders that they may rectify or complete the address are not, when re-posted, treated as re-directed, but as liable to fresh postage.

### MONEY ORDERS.

1. When applying for Money Orders, whether Inland, Foreign, or Colonial, the public should use the prepared printed "Application Forms," which are supplied gratuitously at all Money Order Offices.

2. *Commission.*— The commission on Inland Money Orders is:—

| | |
|---|---|
| For sums not exceeding £1, - - - | 2d. |
| " above £1 and not exceeding £2, | 3d. |
| " " 2 " " 4, | 4d. |
| " " 4 " " 7, | 5d. |
| " " 7 " " 10, | 6d. |

For Telegraph Money Orders' rates of commission see page 29.

3. No order is allowed to contain a fractional part of a penny.

4. *Particulars Required.*—The applicant must furnish in full the surname and at least the initial of one Christian name, both of the remitter and the payee, and the remitter's address. In the case of Foreign Orders the full address of the payee must be given; and if the order be payable to a native in British India the tribe or caste, and the father's name, must also be furnished.

*Exceptions.*—1st. The remitter of an Inland Order may direct, at the time of issue, that the order be crossed like a cheque, thus & Co., and thus be made payable only through a Bank. In that case he may give or withhold the name of the payee. The designation of the Bank need not be furnished.

2nd. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient.

3rd. The usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the name of the persons composing it, as the "Carron Company;" but even a designation of this nature may be accepted, provided the order be crossed for presentation for payment through a bank.

5. The holder of an Inland Money Order may direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted.

6. When application is made for a Money Order payable in London, or at any other town where there is more than one Money Order Office, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed only at the Head Office.

7. An order once issued cannot be cancelled; and should repayment or transfer to a different office be required, the remitter or payee must apply to the paying Postmaster according to the directions in paragraph 15 of these regulations.

8. Money Orders do not require a receipt stamp.

9. When an Order is paid through a bank it is sufficient that it be receipted, without regard to any discrepancy between the signature and the name in the advice, and that it be crossed with the name of the bank, and presented by some person known to be in the employment of that bank.

10. Although at the end of twelve months from that in which it was issued, a Money Order, if still unpaid, becomes legally void, nevertheless, when a good reason can be given for the delay in presenting it, an application for payment, subject to a certain deduction, is entertained.

11. No application can be entertained for compensation for alleged injury from the non-payment of a Money Order at the expected time.

12. After once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim.

13. To guard against fraud the remitter is recommended:—

1st. When he is well known to the payee, to sign the letter enclosing the order with his initials only.

2nd. When this is not the case, either to make the order payable ten days after date, or to register the letter enclosing it, or to make the order payable through a bank by crossing it like an ordinary cheque.

3rd. When it is not considered expedient to adopt any of these courses, to send the remitter's name (without a knowledge of which payment cannot be obtained) in a separate letter from that containing the Money Order; although this latter precaution is much less effective than either of the others.

14. Payment of an order cannot be demanded on the same day as that on which the order was issued.

15. In case of the miscarriage or loss of an inland Money Order in transmission through the post, a duplicate will be granted, free of charge, on a written application (with the necessary particulars) being forwarded to the Controller of the Money Order Office in England, Scotland, or Ireland, according to the country in which the original order was issued. Should an Order be lost by the remitter or payee an additional commission (which should be forwarded in postage stamps together with the application for a duplicate order) will be charged. This additional commission, for duplicate of an order not exceeding £5, will be 1s.; above £5 and not exceeding £10, 2s. If it be desired to stop payment of an inland order, a notice must be sent to the office where the order is payable, and a second commission in postage stamps must be enclosed. If alteration in the name of the payee or remitter of an inland Money Order should be required, application, accompanied by the payment of a second commission, must be made by the remitter to the Postmaster of the office at which the order was issued. Should transfer of payment of an inland order from one office to another in the United Kingdom, or repayment of the amount of an order, be required, an application inclosing the order must be made to the Postmaster at whose office the order is payable; who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the reissue. Proper printed forms for making application in all these cases may be obtained at any Money Order Office. Whenever, on complaint being made, it is found that the necessity for an application, entailing the payment of a fresh commission, is attributable to the Post Office, the charge will be remitted to the applicant and imposed on the officer in fault.

16. A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the prescribed form of application. If payment of an order be refused, in consequence of the reply to the question respecting the remitter, or the signature on the order not corresponding with the entries on the advice, the applicant for payment should communicate with the remitter, and request him to apply personally to the issuing Postmaster.

17. No Postman or other Servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one; but such services are not forbidden.

*Telegraph Money Orders (Inland).*

18. Money may be transmitted by Telegraph Money Order between all Head and Branch Offices in the United Kingdom authorised to transact Telegraph and Money Order business.

| *a.* The commission is— | s. | d. |
|---|---|---|
| For sums not exceeding £1, - - - | 0 | 4 |
| " above £1 and not exceeding £2, - | 0 | 6 |
| " " 2 " 4, - | 0 | 8 |
| " " 4 " 7, - | 0 | 10 |
| " " 7 " 10 - | 1 | 0 |

In addition to the commission, a charge is made at the ordinary inland rate for the official telegram authorising payment at the office of payment and for the repetition thereof, the minimum being 9d. The telegraph charges only cover the cost of transmitting the official telegram of advice to the Postmaster of the office of payment and its repetition. Any telegraphic communication which the remitter may wish to despatch to the payee must be paid for at the ordinary inland rate, the minimum being 6d.

*b.* No Telegraph Money Order can be issued for a greater amount than £10.

*c.* Any person expecting a remittance by telegraph must furnish satisfactory evidence that he himself is the person entitled to receive the money. He, or someone on his behalf, must attend at the office to obtain payment.

*d.* Should repayment of a Telegraph Money Order be required, the remitter must make application to the Controller, Money Order Office, General Post Office, London, or to the Accountant in Edinburgh or Dublin, according to whether the order be remitted from an office in England and Wales, Scotland, or Ireland. He must enclose the official receipt with his application . A new order will then be issued, less the ordinary commission, payable at any Money Order Office named for the purpose.

*e.* In other respects, Telegraph Money Orders are subject to the regulations which govern the transmission of ordinary money orders.

19. Money Orders are issued in the United Kingdom on the following foreign countries, British agencies, possessions, and colonies, at the rates of commission shown below :— Foreign Countries—Austria, Belgium, Bulgaria, Chili, Denmark (with Faröe Islands), Danish West Indies, Dutch East Indies, Egypt, France, with Algeria, German Empire, Hawaii (Sandwich Islands), Holland, Hungary, Iceland, Italy, with offices on the Red Sea and at Tripoli, Japan, North Borneo (Sandakan), Norway, Orange Free State, Portugal (including Madeira and the Azores) Roumania, Sarawak, Sweden, Switzerland, Tunis, United States. Foreign Towns—Adrianople, Beyrout, Constantinople, Panama, Salonica, Smyrna, and Tangier (Morocco). British Possessions and Colonies—Bermuda, British Bechuanaland, British Columbia, British Guiana, British Honduras (Belize), Cape of Good Hope, Canada, Ceylon, Cyprus, Falkland Islands, Gambia, Gibraltar, Gold Coast, Hong Kong (with agencies at Shanghai, Amoy, Canton, Foochow, Hankow, Hoihow, Swatow, and Ningpo), India (including Burmah and agencies at Aden, Baghdad, Bunder Abbas, Bushire, Bassorah, Guadur, Jask, Linga, Muscat, and Zanzibar), Lagos, Malta, Mauritius, Mombasa and Lamu, Natal, New Brunswick, Newfoundland, New South Wales, New Zealand, Nova Scotia, Prince Edward Island, Queensland, St. Helena, Seychelle Islands, Sierra Leone, South Australia, Straits Settlements, Tasmania, Victoria, West Indies, Western Australia, for sums not exceeding £2, 6d.; £5, 1s.; £7, 1s. 6d.; £10, 2s.

20. In the case of Austria, Belgium, Bulgaria, Chili, Denmark, Danish West Indies, Iceland, Egypt, Germany and Heligoland, Holland, Hungary, Dutch East Indies, Japan, Norway, Portugal, Roumania, Sweden, Switzerland, Tunis, India, and the Ottoman towns of Adrianople, Beyrout, and Salonica, the original Order, issued in this country, should be retained by the remitter, a new Order in the currency of the country of payment being issued by the Chief Office of that country, and sent to the payee.

In the case of France, &c., Hawaii, Italy, &c., British Bechuanaland, North Borneo, the Orange Free State, Sarawak, the United States, Canada, Constantinople, Smyrna, Panama, and Tangier, and the British possessions and colonies generally, with the exception of India, the Order issued in this country should be sent to the payee by the remitter.

In like manner, the Orders issued in Austria, Bulgaria, Belgium, Denmark, Danish West Indies, Iceland, Egypt, Germany and Heligoland, Holland, Hungary, Dutch East Indies, Italy, Norway, Portugal, Roumania, Sweden, Switzerland, Tunis, India, and the Ottoman towns of Adrianople, Beyrout, and Salonica, are of no value in this country, and should, therefore, be retained by the remitters.

21. The issue of a duplicate Order, or the stoppage of payment of an Order issued by a Colony or Foreign Country on the United Kingdom, will be made on application to the Controller of the Chief Money Order Office, London, provided an additional commission be enclosed as follows:—1. For duplicates of Orders, not exceeding £5, 1s.; above £5, and not exceeding £10, 2s. 2. For stoppage of payment, an additional commission at the ordinary Inland Rates. Postmasters in the United Kingdom have power to transfer to other Offices in the United Kingdom payment of colonial and foreign orders originally drawn on their own offices.

22. Orders issued in the United Kingdom on Austria, Bulgaria, Belgium, Chili, Denmark, Danish W. Indies, Hungary, Italy, France, Japan, Orange Free State, Portugal, Roumania, Sarawak, Sweden, Tunis, United States, Switzerland, Holland, the Dutch East Indian Possessions, Norway, Egypt, Hawaii, the Ottoman towns of Adrianople, Beyrout, and Salonica, and the British possessions and colonies, are payable for twelve months after the month of issue. Orders issued in the United Kingdom on the German Empire and India, are subject to the regulations which govern the payment of money orders in those countries.

23. Orders for the British Colonies and other possessions abroad, excepting Canada and India, are drawn in sterling, but the regulations provide that in those colonies where the local currency is other than sterling, payments for Money Orders may be made to the nearest equivalent in the legal currency of the place in which the Orders are payable.

24. As the advices of Orders drawn on the British Colonies, &c., have to circulate through the London Office, and also the Chief Office of the paying country, such Orders should be taken out in sufficient time to allow of the despatch of the relative Advices, so that the presentation of the Orders and the arrival of the Advices may be simultaneous.

4. Every person to whom a Postal Order is issued should keep a record of the number, date, and name of office of issue to facilitate enquiry if the order should be lost.

5. If a Postal Order be crossed, payment will only be made through a Banker, and if the name of a Banker is added, payment will only be made through that Banker.

6. A Postal Order presented by, or through, a Banker for payment will not (in the absence of an express arrangement between such Banker and the Postmaster-General to the contrary) be paid until after such Order has been examined at the Chief Office in London.

7. After a Postal Order has once been paid, to whomsoever it is paid, the Postmaster-General will not be liable for any further claim.

8. If any erasure or alteration be made, or if the Order is cut, defaced, or mutilated, payment may be refused.

9. The regulations under which Postal Orders are issued allow the Postmaster to delay or refuse the payment of an Order, but he must at once report his reasons for so doing to the Postmaster-General. He may also require the person presenting the Order to sign his name on the Order before its payment, although the receipt has been already signed.

10. After the expiration of three months from the last day of the month of issue, a Postal Order will be payable only on payment of a Commission equal to the amount of the original poundage, with the addition (if more than three months have elapsed since the said expiration) of the amount of the original poundage for every further period of three months which has so elapsed, and for every portion of any such period of three months over and above every complete period.

11. The Commission thus paid must be affixed in Postage Stamps to the back of the Order.

12. No postman, or other servant of the Post Office, is bound to procure a Postal Order for any person, or to obtain payment for one; but such services are not forbidden.

13. After the closing of the Money Order Office, Postal Orders may be obtained at the stamp counter, Head Office, George Square, until 10 p.m. on week days.

## POST OFFICE SAVINGS BANKS.

1. Post Office Savings Banks are established at all Money Order Offices in the United Kingdom, and are open for the receipt and payment of money and for the transaction of Government Stock business daily during the hours appointed for Money Order business.

2. At these Offices ordinary deposits of one shilling, or any number of shillings, will be received, subject to the limits of £30 in one year ending 31st December, and £150 in all, exclusive of interest. Deposits will also be received for immediate investment in Government Stock, and in connection with Government Insurance and Annuities.

Any person desirous of saving one shilling by means of penny contributions, for deposit in the Post Office Savings Bank, may do so by purchasing with every penny so saved a penny postage stamp, and affixing it to a form to be obtained at any Post Office. Instructions as to this form are printed thereon.

3. *Interest.*—Interest at the rate of £2 10s. per cent. per annum (which is at the rate of 6d. in the pound for each year, or at the rate of one halfpenny on each complete pound for each calendar month), is allowed until the sum due to a depositor amounts to £200, when interest ceases. The calculation is made from the first day of the calendar month next following the day on which a complete pound has been deposited or completed, up to the last day of the calendar month preceding the day on which a warrant for repayment is issued. The interest due to each depositor is added to the principal due to him on the 31st December in each year.

4. *Transfers of Deposits.*—A person may transfer his deposits from a Trustee Savings Bank to the Post Office Savings Bank, or *vice versâ*, by obtaining a certificate of transfer, which will be accepted as a deposit of the amount therein set forth. Forms of application for certificates of transfer to a Trustee Savings Bank can be obtained at any Post Office Savings Bank.

5. *Withdrawal of Deposits.*—Any depositor wishing to withdraw the whole or part of the sum deposited by him, must make application for the same to the General Post Office in London, in a form which may be obtained at any Post Office Savings Bank.

6. *Repayments.*—Repayments will be made only to the depositor in person, or to the bearer of an order under his hand, signed in the presence of either the minister of the parish in which the depositor resides, of a justice of the peace, or in case of sickness, of the medical attendant.

## INVESTMENTS AND SALES OF GOVERNMENT STOCK UNDER THE SAVINGS BANKS ACT, 1880.

1. A depositor in the Post Office Savings Bank who desires to invest in Government Stock, must send to the Controller of the Savings Bank Department, General Post Office, London, together with his deposit book, an application signed by him on a form to be obtained at any Post Office Savings Bank. Such investments can be made in Consolidated, 2¾, 2¾ (1905), 2½, or in Local Loans 3 per Cent. Stock.

2. The minimum amount of Stock which may be purchased or sold is 1s., and not more than £100 Stock can be credited to an account in any year ending the 31st December, or £300 Stock in all.

3. The commission chargeable on investment, including the receipt of dividends, and on the sale of Stock, is as follows:—

## GOVERNMENT INSURANCES AND ANNUITIES.

Immediate or deferred annuities of not less than £1, or more than £100, may be purchased through the Post Office on the life of any person over 5 years of age.

Any person between 14 and 65 years of age may insure his or her life for not less than £5 or more than £100. The lives of children between 8 and 14 years of age may be insured for £5.

If the amount of the Annuity or Insurance purchased is less than £100, further Annuities and Insurances may be purchased from time to time until the total amount of annuities depending on the life is £100, and the total sum insured is £100.

The persons whose lives are insured or to whom annuities are granted by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

The Post Office of Glasgow receives proposals for the insurance of lives and the purchase of annuities; and forms of proposal, with full instructions for filling up and delivering the same, as well as every other necessary information, may be obtained on application.

## POST OFFICE TELEGRAPHS.

1. The charge for telegrams throughout the United Kingdom is 6d. for the first 12 words, and ½d. for every additional word. Addresses are charged for.

2. Postage stamps are used for the payment of telegrams, and the public are required to affix them to the message forms just as they are required to affix them to letters.

3. Receipts for the charges on telegrams can be obtained at a cost of 2d. each.

4. The telegram forms are of two kinds, namely, the "A 1" form, embossed with a stamp, and the "A" form (given gratis), with no stamp. The "A 1" forms may be purchased singly. They may also be had in books of 20 forms, interleaved, and with a sheet of carbonic paper, price 10s. 2d. per book.

5. When the terminal office, *i.e.*, the office nearest to the address, is a Head Post Office, the amount paid for transmission covers the cost of delivery within one mile, or within the town post delivery of that office when the delivery extends more than a mile. But when it is not a Head Post Office the message is delivered free within one mile only. When the terminal office is a sub-office and that office is closed, exemption from porterage is allowed for one mile only if the telegram is delivered from the Head Office, even though the address of the telegram be within the limits of the town postal delivery.

6. When the address is beyond the free delivery, porterage is charged at the rate of 6d. per mile, or part thereof, provided the whole distance does not exceed three miles; but the charge is calculated from the boundary of the district within which no porterage is levied.

7. If the addressee resides at a greater distance than three miles from the terminal office, porterage is charged for delivery by mounted messenger at the rate of 1s. per mile, except in Ireland, where the charge usually is 8d. per mile. The charge is reckoned from the Office door.

8. The sender is responsible for the porterage and when the address is not within the free delivery he must, if practicable, state the distance and pay the porterage in advance. When the exact distance is not known, a deposit must be paid. Should the sender undercalculate the charge the deficiency is charged on delivery. If the sender pays too much, the excess is refunded.

9. If the sender requires his telegram to be forwarded by post or by train from the terminal office, he must write the words "by post" or "by train" (these words being charged for) at the end of the address, and in the latter case he must pay the cost or deposit 1s. if the exact cost is not known.

10. If the telegram is to be posted to a place abroad, he must write "post———" (which will be charged for) at the end of the address; and must prepay the postage. Thus a telegram of 25 words, to be posted from London to Calcutta, *viâ* Brindisi, should be marked "post London" and be prepaid 1*s.* 5½*d.*, viz., 1*s.* 0½*d.* for telegraphing, and 5*d.* for postage.

11. A deposit of 5s. is required upon all telegrams addressed to persons on board ship (unless the ship be lying along side a wharf, jetty, or pier). Any surplus is refunded.

12. An embossed stamp which has been removed from a spoiled and unused "A 1" form will be accepted in payment of a telegram; but mutilated or defaced stamps will not.

13. The sender should furnish his address to enable the Department to communicate with him, if necessary. When it is not to be telegraphed, it should be written on the back of the form.

14. Telegrams can be repeated by being signalled back from office to office. No copy of the telegram is, in such case, given to the sender. The charge for repetition is one half the ordinary tariff; fractions of ½d. being reckoned as ½d.

15. Telegrams containing mercantile quotations or figures, and telegrams written in cypher, or according to a preconcerted code, should always be repeated.

16. If the receiver of a telegram doubts its accuracy he may have it repeated by depositing half the amount paid for its transmission to him. Should he require only a portion of the message to be repeated, a payment must be made at the half rate sufficient to

cover the number of words embraced in the repetition. The money will be refunded if it should turn out that the telegram has been inaccurately transmitted. A fraction of a halfpenny is reckoned as a halfpenny. The minimum charge for repetition (even of a single word) is threepence.

17. The cost of a reply not exceeding forty-eight words may be prepaid; and a reply form will then be delivered to the addressee, who will be at liberty to send his reply, from any Telegraph Office, at any time within two months. If the form be not used, the value of it will be refunded to the sender of the original telegram on his applying within two months to the secretary, General Post Office. A reply form, however, need not necessarily be used for the reply, but may be used to prepay any message.

18. Telegrams re-directed to a second address are liable, if any additional service is performed, to an additional charge of 6d. if the two addresses are within the same town (each London Postal district being considered, for this purpose, a separate town), but if the addresses are in different towns the full inland rate is charged for re-direction. In addition to the amount chargeable for re-direction and porterage on each re-transmitted telegram, a fee of £1 1s. per annum is charged for the registration of special instructions as to the re-direction of telegrams after office hours. Removals are registered, when this is specially requested, for a period of one month; and no charge is made for the registration; but in this case also the telegrams are subject to the usual charges for re-direction and porterage.

19. Copies of a telegram directed to more than one person in the same free delivery are delivered at a charge of twopence per copy, in addition to a halfpenny for each word in the address of the copy. Each London Postal District is regarded, for this purpose, as forming a separate delivery.

20. Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate," in a wall or pillar box, or at a receiving Office or Sub-Post Office. Telegrams so posted are sent on by the next collection to the Telegraph Office to which the letters included in such collection are taken, and are thence transmitted and delivered free of extra charge, provided the proper amounts for transmission and for porterage (if any) have been prepaid. The time of arrival at the Telegraph Office is regarded as the time of receipt from the public. Telegrams may also be posted not enclosed in envelopes, and when so posted they will be treated in the same manner. Telegrams posted insufficiently prepaid are forwarded, and the deficiency is charged to the addressee, but unpaid telegrams are not forwarded.

21. Telegrams in plain language in any European tongue or in Latin are charged for according to the number of words; but all words not forming part of any European language or of Latin are charged for at the rate of five letters to a word.

22. No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "non-delivery," "almshouses," "forty-seven."

23. The following exceptional names, such as O'Neil, MacDonald, De la Rue, are charged for as single words. So, too, are names with the prefix "St.," as St. Pancras, but double names, like Smith-Payne, are counted as two words.

24. The abbreviations of words, can't, won't, don't, are counted as single words, but there is a great risk of error.

25. Figures are counted at the rate of five figures to a word. For example, "38563" counts as one word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division—thus, "½" counts as one word, "2¾" as one, "109⅞" as two. In groups of figures denoting time, a stop is counted as a figure: thus, 12-35 counts as one word. In groups of figures which do not denote time a stop is counted as a word: thus "39, 85" is charged for as three words. The symbols o/o, a/c, b/l, c/o, are each counted as one word. Ordinal numbers are charged in the same way as cardinal, with the addition of one word for the affix st, nd, rd, or th.

26. Where a group of figures is followed or preceded by a letter, the letter is counted as a word: thus 104a or a104 counts as two words.

27. Initial letters are each counted as one word; but exceptionally the initials of the London Postal Districts are counted as one word for each group. Thus: "S.W." is counted as one word.

28. All names of Head Offices and Sub-Offices in the United Kingdom are counted as one word each, and so also are the names of those railway stations (not in towns) at which telegraph business is transacted on behalf of the Post Office. For example, "Newcastle-on-Tyne," "Malvern Wells," and "North Thoresby" are counted as one word each. All names of Town Receiving Offices and Branch Offices, names of Foreign Places, and all other names, are counted according to the number of words of which they are composed. For example, "Hanging Ditch" and "Park Lane" are each counted as two words.

29. When the sender desires words to be underlined, or placed in a parenthesis, or within inverted commas, two extra words are charged for. **When the sender of a telegram desires that special instructions, such as "private," "confidential," "to be opened at once," or the like, shall be written on the envelope of the message, he must write the instructions immediately after the address of the receiver. The instructions are charged for as part of the message.**

30. Any person may register an abbreviated or arbitrary address on payment of a registration fee of 1*l.* 1*s.* a year, dating from the day of registration. The address must consist of not less than two words, one of which is to be the town or place of delivery. Telegrams intended to be delivered to the care of a person who has registered an abbreviated address must have "care of" or "c/o" written before the abbreviated address, thus: "Smith, care of Hercules, London."

N.B.—The registration of abbreviated addresses is not recommended. It would be much better if in all cases full addresses were used.

31. The addresses of telegrams should be sufficiently full to enable the Department to effect delivery without difficulty, and without reference to directories. The number of the house and the name of the street in which the addressee resides should be given if possible. It should also be noted that an address ordinarily used for letters is not necessarily correct for telegrams, and the sender of a telegram should be careful to give the name of the Telegraph Office from which the telegram will be

delivered, unless such Office is a Branch or Receiving Office in a town, when the name of the town will generally be sufficient.

32. When telegrams are addressed to a Telegraph Office to be called for, they are kept for two clear days; and if no application be made for them within that time, are sent to the Chief Office, London.

33. Telegrams for the re-direction of letters or parcels are accepted at the ordinary rate of charge; but the sender must append his signature to the telegram, otherwise it cannot be acted upon.

34. Telegrams which are indecently or obscenely worded, or which appear to contain libellous or grossly offensive matter, will not be transmitted.

35. The Department is not liable for losses incurred through the incorrect transmission, delay, or non-delivery of telegrams.

*The Weather, and Forecasts of the Weather.*

The latest information as to the weather in any district of the United Kingdom, and forecasts of the weather one day in advance in any district not bordering on the Atlantic, can be obtained by telegraph from the Meteorological Office on payment of a fee of 1s. in addition to the cost of a telegram and reply.

The Meteorological Office is open between the hours of 11 a.m. and 8 p.m. on week days, and 6 p.m. and 8 p.m. on Sundays, and its telegraphic address is "Weather, London."

*Signalling Stations.*

Signalling stations have been established by the Post Office, by Lloyd's, and by others, from time to time, at various points round the coast of the United Kingdom; and telegrams to and from vessels passing such stations may be signalled when the vessels are passing.

The Post Office signal station is at Hurst Castle.

The charge for signalling, or for reporting the passing of a ship, at Hurst Castle signal station is 1s., and must be prepaid.

The charges made by Lloyd's and others for similar services, or for giving other information, vary in amount. They are collected on the delivery of the telegram containing the report.

In all cases the Post Office charge for the transmission of the telegram (including the reply, if any) must be prepaid at the ordinary rate for inland telegrams.

## PRIVATE WIRES.

1. The Department undertakes to construct and afterwards maintain, upon the payment of an annual rental, a line of private wire between the place of business or residence of a firm or private individual and a Postal Telegraph Office, or between two or more places of business or residences. The advantage of having a private wire led into a Postal Telegraph Office is that the renter is placed in direct communication with the public wires to all parts of the kingdom or abroad, messages being received from and sent to the Postal Telegraph Office by wire instead of by hand. The renter has also the privilege of sending messages over his private wire to be forwarded from the Post Office as ordinary letters.

2. The Department also undertakes to supply Greenwich mean time by electric current at either ten or one o'clock.

3. All applications or communications in regard to private wires or time signals should be addressed to "The Secretary, General Post Office, London, E.C."

## FOREIGN TELEGRAMS.

(Regulations founded upon the International Telegraph Convention.)

1. Foreign telegrams are divided into three classes—ordinary, code, and cypher. Ordinary telegrams are those composed of words, figures, and letters conveying an intelligible meaning.

2. Code telegrams are those composed of words the context of which has no intelligible meaning. Proper names are not allowed in the text of code telegrams, except in their natural sense. Words of more than ten letters are not allowed. In code telegrams, only English, French, German, Italian, Spanish, Portuguese, Dutch, and Latin, may be employed; but words of any or all of these languages will be allowed in one telegram.

3. Cypher telegrams are those containing series or groups of figures or letters having a secret meaning; or words not to be found in a standard dictionary of the language. The cypher must be composed exclusively of figures or exclusively of letters. Cypher telegrams written in letters are only accepted for places in Europe and North America.

4. The address of the receiver must be paid for, and must not consist of less than two words—a name and a town. Example—Hercules, Bombay.

5. The address of the sender is charged for if transmitted; it in any case must be written at the foot of the form.

6. In ordinary European telegrams the length allowed for a single word is 15 letters; in Extra-European telegrams, 10 letters—any additional letters being charged for at the rate of 15 or 10 letters respectively to the word.

7. Subject to this limit, ordinary compound words and names written without break are counted as single words. If joined by a hyphen, or separated by an apostrophe, they are counted as so many separate words. Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office and of the country of destination in the addresses of telegrams are charged for as one word each, whatever their length. Words incorrectly spelled, so as to reduce the number of letters below the maximum, or incorrectly joined together, contrary to the usage of the language, are treated as cypher.

If the sender of a telegram from a place abroad improperly joins together English words for the purpose of reducing the charge, the amount undercharged is collected from the addressee.

8. Every separate letter or figure is charged for as one word, and in European telegrams every group of five figures or letters is counted as one word, larger groups being counted at the rate of five figures or letters to a word, plus one word for any excess. In Extra-European telegrams groups of figures or letters (when these are trade marks) are counted at the rate of three to a word, plus one word for any excess. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

9. In telegrams for large towns the exact address

should be given, and should be in French, or in the language of the country to which they are to be sent. When it cannot be given, the profession or calling of the addressee should be stated, otherwise the telegram will be forwarded only at the risk of the sender. If there is more than one place of the same name, the name of the country or state in which the place is situated should be added to the address.

10. Corrections, alterations, or additions to the address can only be made by means of a fresh telegram, which must be paid for at the ordinary rate.

11. If the sender desires to prepay a reply of 10 words, he must insert before the address of the receiver "R P," which is charged for as one word; but if he desires a reply of more or less than 10 words, he must insert "R P ——," which are charged for as two words. In the case of those countries for which a minimum charge of 10*d.* exists, a less sum than 10*d.* cannot be accepted in prepayment of a reply. More than 30 words cannot be prepaid. A voucher for the reply is issued by the office of delivery, and the person receiving it is entitled to use it in payment, or partial payment, as the case may be, of a telegram to any destination. If the addressee do not use the reply form of an Extra-European telegram, the amount will be returned to the sender, provided the addressee returns the form to the Post Office within six weeks, and requests that the money may be refunded. No allowance is made in case the charge for the reply is less than the amount prepaid. *And in no case is the amount prepaid for a reply refunded in the case of European telegrams.*

12. The sender can have his telegram repeated from office to office by paying over and above the charge for the original transmission a quarter of that charge. If the telegram is for one of those countries for which there is a minimum charge per telegram, the lowest charge will be the minimum charge plus one quarter of the minimum charge. In that case "T C," which is charged for as one word, must be inserted immediately before the receiver's address.

13. Repetition is desirable for all code telegrams.

14. On payment of a charge equal to the inland rate, the sender of a telegram can have it repeated between the office of origin and the office in Great Britain at which it is handed over to the Cable Company.

15. The sender may have a notice of the time at which his telegram was delivered transmitted to him by telegraph by payment of an additional rate for ten words. In that case "C R," which is charged for as one word, must be inserted before the receiver's address.

16. The receiver of a telegram can, within 72 hours after its delivery, request the Department to obtain the correction of passages which appear to be doubtful. For this purpose he must pay for two separate telegrams, viz.:—1. A telegram requesting the repetition, and containing an indication of the number of words prepaid for a reply. 2. A telegram of the length of the passage to be repeated, plus one word for the name of the addressee. The amount is refunded, on application to the Secretary, G.P.O., if it should prove that the telegram has been inaccurately transmitted. If the repetition shows that only a portion of the telegram was inaccurately transmitted, a proportionate part only of the amount paid for repetition will be remitted.

17. The receiver of a telegram may have it repeated from the office at which it was handed over by the Cable Company or Foreign Administration to the Department on depositing the ordinary inland rate for the part of the telegram of which he requires the repetition (the minimum charge being 6d.); and if it be found that an error has taken place on the lines of this Department, the amount deposited for the repetition will be refunded.

18. When the sender is not certain that the receiver will be found at the address given and wishes the telegram to be sent on to him he should insert, before the address, "F. S." which will be charged for as one word. Telegrams "to follow" are not accepted for Extra-European countries.

19. In telegrams intended to be left until called for at Telegraph Offices or at Post Offices, the words "Telegraphe Restant" or "Poste Restante" must be inserted as part of the receiver's address.

20. A telegram addressed to several persons in the same town, or to the same firm at different localities in the same town, is charged for as a single telegram, and a sum of 5d. must be prepaid for every extra copy to be delivered, if the number of chargeable words does not exceed 100; an additional sum of 5d. being charged for every additional 100 words or part of 100 words. In calculating the charge all the names and addresses are included. Telegrams having multiple addresses are not accepted for America.

21. Under no circumstances is the charge for an unrepeated telegram, which has been inaccurately transmitted, refunded. The cost of a telegram inaccurately transmitted, of which the repetition to the terminal office has been paid by the sender, is returned if the telegram was rendered useless. The cost of telegrams which have failed to reach their destination, owing to some error on the part of the telegraph service; the cost of any word or words omitted during the transmission of an Extra-European telegram; and the cost of telegrams which have been delayed beyond two days in the case of European, and beyond six days in the case of Extra-European telegrams, from other causes than an interruption of the telegraphic communication, is returned to the senders. The cost of any telegrams rendered necessary in consequence of the non-delivery, delay, or incorrect transmission of a telegram is in no case returned, except as regards telegrams sent under the conditions mentioned in paragraph 17. The amount paid for a telegram cancelled before transmission is returned, less 5d. If the telegram is cancelled after transmission has commenced, but before it has reached the place to which it is addressed, any balance of charges which may be due will be returned.

22. Claims for reimbursement should be accompanied—1. In the case of non-delivery, by a written statement from the terminal office, or the addressee, that the telegram has not been received. 2. In the case of error in a telegram of which the sender has prepaid the repetition to the office of destination, or of delay, by the actual message form delivered to the addressee. 3. In the case of error in a telegram of which the receiver has paid the repetition from the office of origin, by the original message form delivered to the addressee, together with the form upon which the repeated telegram is written.

23. No claim for reimbursement for European telegrams will be entertained unless it is made within two months of the date of the original telegram; nor in the case of Extra-European telegrams, unless it is

made within six months from the date of the original telegram. Foreign administrations decline to make any inquiry into complaints which do not involve a return of the cost of the telegram within the limits of Rule 21. Telegrams can be sent from one place to another abroad by post. If the telegram be intended for delivery in the same country, no charge for postage is made; unless it is to be posted from one part to another of China or Japan. In the former case the sender is charged 5d., and in the latte 1s. 6d. for postage. If the telegram is to be poste as a registered letter, a fee of 5d. is collected fro the sender. If it be intended for delivery in anothe country, the following are the charges for postag collected from the sender:—On telegrams to be poste from places in Europe, 10d.; from N. and S. Americ or the West Indies, 1s.; from Asia, Africa, or Aus tralia, 1s. 6d.

## LIST OF POST TOWNS AND SUB-OFFICES IN SCOTLAND.

☞ It must be understood that the hours for closing the Letter Box are liable to alteration in the cour of the current year, and, therefore, the Tables exhibited on the board at the Post Office or the Local Po Office Guide ought to be occasionally consulted.

All Offices at which Money Order and Post Office Savings Banks business is transacted are marke thus, *m*. Postal Telegraph Offices are marked thus, *t*. Railway Companies Stations that collect and deliv Telegrams on behalf of the Post Office are marked thus, *r*.

When in the subjoined list *one* place only is mentioned, it is a Head Office, or what is termed a Railwa Sub-Office—that is, a Sub-Office which receives its correspondence direct from a Travelling Post Offic instead of through a Post Town; and when two are mentioned, the *first* is a Sub-Office, and the *second* the Head Office, to which the first is subordinate. It sometimes happens that there is a Money Order Offic *nearer* the Sub-Office than is the Head Office; in these cases such Money Order Office is added as a *thi* name, for the information of any persons who may wish to remit money to the neighbourhood. All Hea Offices are Money Order Offices, but all *Sub-Offices* are not.

*Note.*—When the time of despatch to a Sub-Office is wanted, the times of despatch to the Hea Office should be referred to.

## BAILLIE'S INSTITUTION

Was founded by Mr. George Baillie, writer in Glasgow, who divested himself in his lifetime of his whole fortune (£18,000), which with its accumulations during twenty-one years from 11th November, 1863, he appointed to be applied to the erection and endowment of an Institution in Glasgow, to be called "Baillie's Institution," having for its objects, 1st, To aid the self-culture of the operative classes by means of free public libraries; and 2nd, The instruction of their children in unsectarian schools. The former of these, however, according to his direction, is alone proceeded with, as there is not a sufficiency of funds for both. The Dean, Council, and Clerk of the Faculty of Procurators in Glasgow were appointed perpetual preceptor, patrons, and directors of the institution, which was incorporated by royal charter, dated March 18, 1867. A scheme was afterwards prepared, under the Educational Endowments (Scotland) Act, 1882, for the administration of the trust, which was submitted to the Scotch Education Department, and was approved of by Her Majesty in Council. By it the Governing Body was increased to twelve, who are elected by various public bodies.

A free public library and reading room were opened at 48 Miller Street, on 29th September, 1887.—Chamberlain, Thomas Stout, 178 St. Vincent Street; librarian, E. A. Holme Kay.

Fifty Scotch members are pledged to support the Bill which Mr. M'Lagan, M.P. for Linlithgowshire, has introduced into Parliament, a bill giving the ratepayers of Scotland power to abolish all traffic in intoxicating liquors in their respective burghs, wards of burghs, parishes, and districts when so minded, and the Executive have resolved to give his measure a vigorous and sustained support. To enable them to bring the influence of the Scottish electorate to bear successfully upon the government of the day, and in favour of this Bill of Mr. M'Lagan, liberal subscriptions to the funds are urgently required, and will be gratefully received at the offices or by the agents. Subscribers to the Association of 10s. and upwards yearly receive a copy of *The Reformer* weekly, free, and of 5s. yearly, a copy, post free, monthly. Grove Street Institute is an unsectarian home mission organization, having halls built by public subscription at a cost of £7000, and situated on the margin of one of the most densely populated districts of the city. It is entirely dependent on voluntary contributions, and requires £800 per annum to maintain its work. In addition to the Evangelistic, Medical Mission, Benevolent, and Temperance work, it has departments for fathers, mothers, working-lads, young women, and children—its agencies thus reaching and elevating whole families. It has been in operation for over thirty years as an auxiliary to the churches of all denominations, with results which prove the soundness of its principles of mission work, and the great value of organization.

## EVANGELIZATION SOCIETY (LONDON), SCOTTISH BRANCH.

Offices, Grove Street Institute, Glasgow.

Hon. secretary, T. A. Boyd, Esq., Shettleston Iron Works; secretary, Mr. E. J. Mitchell, Grove Street Institute. Income from £13,000 to £14,000 per year. Number of meetings taken annually, about 21,000.

The Evangelization Society is a company of preachers associated to preach the Gospel. As individuals they belong to various denominations of the Christian Church, but as Evangelists they belong to none. They go out through the Evangelization Society not as members of any particular Church, but only as Evangelists, to preach Jesus to the unconverted. They belong to various ranks in life. Some are gentlemen, some are working men; and when they go out to preach, these differences are recognized as being God's ordinance, and as being also, each in its special way, a talent to be used in the Master's service. The Society was established in 1868. Over one thousand Missions are supplied annually with Evangelists in England, Scotland, and Wales, on the application of Clergymen, Ministers, and others. As no stated charge is made for the services of an Evangelist, no place need be without the Gospel at the hands of the Evangelist so long as this Society exists.

The annual income of the Fund is for the maintenance and promotion of Religious Ordinances, and Education, and Missionary operations, in the first instance in the County of Ayr, Stewartry of Kirkcudbright, and Counties of Wigtown, Lanark, Renfrew, and Dumbarton; by means of payments for the erection or support of Churches and Schools (excepting Parish Churches and Parish Schools) in connection with *Quoad Sacra* Churches belonging to the Established Church, and with the Free Church, the United Presbyterian Church, the Reformed Presbyterian Church, and the Congregational or Independent Church, all in Scotland, or any of them; or in supplement of the stipends of the Ministers of the said *Quoad Sacra*, and the other four Churches, and in supplement of the salaries of Religious Missionaries and Teachers of Schools of the said *Quoad Sacra*, and the other four Churches; and for forming and maintaining Libraries for the use of the general public—such Missionaries, Schools, and Libraries being under the management of members in full communion with one or other of the said five Churches. Office of the trustees, 94 Bath Street.

## SPIRITUALISTS' ASSOCIATION.

Meeting Place—36 Main Street, Gorbals.

President, Mr. James Robertson, 38 Regent Park Sq., Strathbungo. Hon. secretary, Thomas Watt. Public services on Sundays at 11.30 and 6.30, when addresses are delivered by trance and normal speakers.

Spiritualists make the claim that intercourse between the two worlds is actual and possible, that the *modern* phenomena give clear and positive assurance of a continuous and progressive life after the change of death, and reveal in unmistakable fashion that those we held as lost are with us still, and can, under certain conditions, not only make their identity manifest, but can help and cheer. That modern spiritualism with its varied phenomena reveals much that was mysterious regarding spiritual intercourse in all ages, giving the key to the Delphic oracles, the prophetic utterances of an Isaiah or a Jeremiah, no less than those of a Swedenborg, and the outbreak called the "gift of tongues" in the church of Edward Irving. That it is not any *special* revelation given to a sect, but a *new* knowledge of natural phenomena which will throw light on the realm of soul. Some of the noblest of living minds in all ranks of literature and science have declared that it has completely dissipated their materialism, and made clear and palpable the "future life."

## UNITED EVANGELISTIC ASSOCIATION.

This association was formed in 1874, for the purpose of uniting the churches in evangelistic work among the masses. In addition to ordinary evangelistic services, open-air preaching, &c, a hall was built in James Morrison Street, at a cost of about £16,000, where a free breakfast is given every Sabbath morning to upwards of 1000 people, gathered from the very poorest; and at 2 o'clock p.m., about 1000 poor children receive a Bible lesson and a dinner. Three Day Refuges have been carried on for some years, where children, who are entirely or worse than neglected at home, receive three meals a day, and are otherwise helped in their education. There are also Homes at Saltcoats, in which neglected or abandoned children are entirely supported. In connection with the children's Sabbath dinner a committee meets every Friday at 7.30 p.m., in the above hall, to inquire into the cases of poor children sent from any quarter. During the past year 4103 poor children were sent to the country for a fortnight, in connection with the Fresh-Air Fortnight Fund. Income of the association, for all purposes, from voluntary contributions, about £7000 per annum.

For sixty-nine years this Society has been seeking the welfare of all the sailors who visit the port of Glasgow. Libraries are placed on board out-going vessels, and bags of illustrated periodicals, scrap books, &c., of an interesting character, are regularly supplied. The New Seamen's Institute at 200 Broomielaw, erected at a cost of £7650, is free to all sailors, and contains reading room, recreation room, smoking room, lavatories, officers' room, and a temporary home for distressed or shipwrecked seamen; also a coffee tavern. Daily papers, books, games, &c., are all provided free. In 1890 72,230 visits were made to it by seamen, and 2891 letters written. A daily prayer meeting is held there at 11.15 a.m. On the South Side the free reading and recreation rooms in Eaglesham street, Govan road, have been largely used; during 1890 18,881 visits were made to them by seamen. Every facility is provided for the sailor spending his time happily when on shore.

At the Seamen's Chapel, 11 Brown street, five services are held every week, the Saturday night one being a social free tea meeting; and at the Seamen's Bethel, Eaglesham st., Govan rd., six services are held weekly, the Saturday night one being also a social free tea meeting. Seamen's families are all regularly visited, and the widows of seamen who have been left unprovided for by their husbands—and in many cases with large families—are helped by money, clothing, work, &c.

Eight agents are constantly employed, assisted by a band of voluntary workers.

The expenditure of the Society this year will be about £1400, and a further sum of £600 is required for the relief of the widows of seamen—in all £2000. There is no endowment, but it is entirely supported by voluntary contributions. Help is earnestly solicited.

Pres., Mrs. Playfair, 12 Woodside Terrace; secretary, Miss Telford, 9 Clydeview, Partick; treasurer, Mrs. Napier, Woodlee, Windsor Circus.

The aim of the Society is to provide warm clothing for the poor fever patients when about to be dismissed from the comforts of the hospitals to their own homes. In too many cases their original clothing is scanty and utterly insufficient to protect even a vigorous person from the cold. But for the aid of the society they would, when divested of the warm suits provided for use within the hospital, be sent out in tattered garments, as well as with enfeebled bodies, almost certainly to the permanent injury of their health. The utmost care is taken that the articles are given to the needy and deserving only. There is no convalescent home for poor fever patients.

Accidents occurring outside the Glasgow parliamentary boundaries, and within a radius of ten miles from Glasgow, are also attended to; and, in the case of non-subscribers, there is a uniform charge not exceeding 2s. per mile to cover expenses. The waggons are available by day or night, and messages should be sent either by telegraph or telephone, when they will be immediately attended to. The "Shelter" was instituted in 1850, its object being to provide a home for females on their liberation from prison, who are desirous to reform and to support themselves by honest industry. The average number of inmates in the "Shelter" during the past year was 50. They are employed in needlework, the institution receiving the proceeds of their labour, in return for which the inmates are lodged, fed, and clothed. In addition to this, a suitable outfit is given to those who remain a full year, and go out with the approval of the committee. The inmates of the "Shelter" are all lodged in the House, and are not allowed out except with special permission.

This Home was begun in 1878, and its object also is to provide for females who have been in prison, and desire to lead a better life. The distinctive feature of this mission is that the inmates are not required to remain for a year, as in the Hill Street Shelter. Besides three comfortable meals during the day, those employed in the washing-house and laundry receive 9d. per day, and the sewers and knitters according to the work done. The women return us 1s. 6d. a week for lodgings.

## ROYAL NATIONAL LIFEBOAT INSTITUTION.

### Glasgow Branch.

Local Committee—Wm. Cairney, Esq., chairman; Sir A. Orr Ewing, Bart., Sir John Burns, Bart., David M'Cowan, Esq., David MacBrayne, Esq., Robt. S. Allan, Esq., Leonard Gow, jun., Esq., William Burrell, Esq., James Lilburn, Esq.; hon. secretary, R. Hope Robertson, Esq.; hon. treasurer, James A. Small, Esq., 69 St. George's Place.

During the past year the institution have incurred heavy liabilities in their endeavour generally to improve the lifeboat service. This being so, the Glasgow committee would earnestly urge upon the public the necessity of supporting this most deserving institution, especially as we are so intimately connected with ships and shipping. They feel that many of the present subscribers might increase their subscriptions, and new firms might add their names to the list.

During the past year (1890) the institution expended £64,890 on the various lifeboat establishments on our coasts. This sum was in excess of the income of the year. The average loss of life from shipwrecks on our coasts annually is 650 lives. Last year the institution granted rewards for saving 773 lives. There are 300 lifeboat stations on our shores, and during the society's existence the lives saved either by its boats or by special exertions, for which it has granted rewards, is 35,443. Surely this is a work that calls for every support from all classes of the community.

*Form of Bequest of money, stock, or other personal estate.*

I give and bequeath to the Royal National Life-Boat Institution for the Preservation of Life from Shipwreck, founded in 1824, London, the sum of £ , for the use of the said Institution; and I do hereby direct that the same be paid out of my chattels personal.

Annual subscriptions, donations, or legacies will be thankfully received by the secretary or treasurer.

## RAILWAY BENEVOLENT INSTITUTION, FOR THE RELIEF OF RAILWAY OFFICERS AND SERVANTS, THEIR ORPHANS, WIDOWS, AND CHILDREN, WHEN IN DISTRESSED CIRCUMSTANCES.

INSTITUTED MAY, 1858.

*The Scottish Branch* is under the *special patronage* of Her Most Gracious Majesty the Queen, who has sent a donation of £50 to the fund in Scotland. Scotch branch office, 302 Buchanan st., Glasgow. Committee of management in Scotland—Chairman, John Blackburn, Esq., Caledonian Railway; Wm. Brown, Esq., Glasgow & South-Western Railway, D. Cooper, Esq., Glasgow & South-Western Railway, Geo. Cunningham, Esq., North British Railway, D. M'Dougall, Esq., North British Railway, James M'Laren, Esq., North British Railway, William Moffatt, Esq., Great North of Scotland Railway, John Morton, Esq., Glasgow & South-Western Railway, J. S. Stuart, Esq., Great North of Scotland Railway, Jas. Thompson, Esq., Caledonian Railway, George Thomson, Esq., Highland Railway, John Walker, Esq., North British Railway; bankers, National Bank of Scotland (St. Enoch Square branch).

This institution (which has no political objects) affords a channel for those who sympathize with railway servants through which to help them in the time of need, and the extent of its sphere of usefulness depends in a great measure upon public support. It has been established to provide for the necessitous members, orphans, children, and widows of the railway officers and servants in the United Kingdom. Its object is to clothe, maintain, and educate orphan children, and to grant relief by annuities and money allowances to members who, from old age, disease, or accident, may be unable any longer to obtain a livelihood, and to the widows of those who may be left in distressed circumstances. Railway officers subscribe 10s. 6d. per annum, railway servants 8s. per annum, to constitute them members, or they may subscribe 2s. per annum to the orphanage only. One moiety of the funds contributed by the public is apportioned between an officers' department and a servants' department in proportion to the amount the members severally subscribe; the other moiety of the donations is applicable to a special benevolent fund for relieving distress amongst officers or servants, whether members of the institution or not, and the widows and orphans of men killed in the performance of their duty. The sum set apart for the orphans of officers is appropriated to their maintenance and education in private establishments selected by their friends and approved by the board of management. Should the funds be insufficient to provide pensions or school benefits for all qualified applicants, there is an election by ballot, and the election of annuitants and orphans is vested in the subscribers, who have also the privilege of recommending cases for gratuities out of the special benevolent fund. In dispensing relief the rules of the institution provide that "the most necessitous must at all times be first relieved."

Donations and subscriptions.—A donation of £105 in one sum, or in payments of not less than £10 10s. each, constitutes the donor a patron or patroness for life, with the privilege of fifteen votes. A donation of £52 10s. in one sum, or in payments of not less than £10 10s. each, constitutes the donor a vice-president for life, with the privilege of six votes. A donation of £10 10s. constitutes the donor a life subscriber, with the privilege of one vote. A yearly payment of £1 1s. (or in quarterly or half-yearly instalments) constitutes a subscriber, with the privilege of two votes. An annual subscription of 10s. 6d. constitutes a subscriber, with one vote. Any three donors or subscribers may also recommend applicants qualified for relief from the special benevolent fund.

Appeal.—The *Scotch committee* of management respectfully and earnestly appeal for aid to the shareholders of railways individually, as specially interested in those upon whom devolve the executive duties in their railway establishments, and to the benevolent of all classes, who are either directly or indirectly benefited by the services of a numerous, well-disciplined, and laborious class of public servants. Donations and subscriptions will be gratefully received and duly acknowledged by the *secretary for Scotland, Robert Gibb, Caledonian Railway, 302 Buchanan Street, Glasgow.*

## NATIONAL SECULAR SOCIETY.

President, G. W. Foote.

GLASGOW BRANCH—Albion Halls, College Street. Sunday Meetings, 12 noon and 6.30 p.m.

Principles and Objects.—Secularism teaches that conduct should be based on reason and knowledge. It knows nothing of divine guidance or interference; it excludes supernatural hopes and fears; it regards happiness as man's proper aim, and utility as his moral guide. Secularism affirms that progress is only possible through liberty, which is at once a right and a duty; and therefore seeks to remove every barrier to the fullest equal freedom of thought, action and speech. Secularism declares that theology is condemned by reason as superstitious and by experience as mischievous, and assails it as the historic enemy of progress. Secularism accordingly seeks to dispel superstition; to spread education; to disestablish religion; to rationalise morality; to promote peace; to dignify labour; to extend material wellbeing, and to realise the self-government of the people. All communications to be addressed to Mr. R. Ferguson, 82 Ingram Street.

## STIRLING'S & GLASGOW PUBLIC LIBRARY.

48 Miller Street.

Stirling's Public Library was founded by Walter Stirling, merchant, an ex-bailie of the city, and son of Dr. William Stirling, a well-known Glasgow surgeon of the last century. The bequest came into effect at the death of Mr. Stirling on 17th January, 1791. It consisted of the founder's own library (802 volumes), his house in Miller Street (where the library now stands), a share in the Tontine Society, and the sum of £1000. Mr. Stirling directed that the library was to be free to any one, and was to exist in perpetuity. In 1825 Mr. William Jameson, jun., bequeathed his books to the library, as did Dr. Scouler, professor of mineralogy in the Royal Society of Dublin, in 1871. In 1871 the Glasgow Public Library, a subscription lending library started in 1804, amalgamated with Stirling's Library, and the title then became Stirling's and Glasgow Public Library.

The library contains over 43,000 volumes and pamphlets, including many rare, valuable, and useful works. It possesses several manuscripts (two on vellum), and nearly thirty examples of fifteenth century printing, the earliest being 1469, or fourteen years after the issue of the first printed book. It is the depository of the only complete set in the West of Scotland of the publications of Her Majesty's Patent Office, which consist of over 150,000 separate publications. They date from 1617 when the first British patent was enrolled, and come up to the latest patents issued. The Board of Trade recently presented a complete set of the Trade Marks Journal to the library, and supply the current numbers as issued.

The foundation being inadequate for the proper maintenance of the library the directors organized a system of lending of books. This has been immensely developed in recent years, and a large supply of new books and magazines—nearly 1850 annually of the latter—render it one of the best, as it is by far the most extensive and most moderately rated lending library in the city and district. The terms are—For two works and one magazine at a time, one year, 10s. 6d.; six months, 7s. 6d.; life, £5 5s.; for one work (no magazine) at a time, one year, 5s. 3d. Members may join at any time (no entry money), and may change their books and magazines singly or together as often as they choose. The library is open every lawful day from 10 a.m. till 10 p.m. A new general catalogue of the books has just been issued.

Board of Directors—President, the Hon. John Muir, Lord Provost; vice-president, Sir Michael Connal; elected by the Town Council, ex-Preceptor Wilson, Councillor Colquhoun, and Bailie Graham; elected by the Merchants House, J. O. Mitchell, J. Guthrie Smith, and Chas. Gairdner, LL.D.; elected by the Presbytery of Glasgow, Rev. Dr. F. L. Robertson, Rev. David Millar, and Rev. G. Gibson Gunn; elected by the Faculty of Physicians and Surgeons, Dr. R. Perry, Dr. J. Wallace Anderson, and Dr. John Barlow.

Hon. treasurer, J. M. Cunningham; hon. secretary, John Forbes Ferguson; librarian, William Hutton.

## THE MITCHELL LIBRARY.

23 Miller Street.

Founded on a bequest of the late Stephen Mitchell, Esq. Mr. Mitchell died in April, 1874, and the be-

quest was accepted by the Town Council in July of the same year.

The library was opened November 1, 1877, and is open daily from 9.30 a.m. till 10 p.m. uninterruptedly. It now contains about 88,000 volumes, and is by far the largest library in Scotland to which the general public have a right of free admission. The books are not permitted to be taken away, but may be read in the library, which has been conveniently furnished for this purpose. There is a magazine room, where may be seen about 300 of the principal weekly, monthly, and quarterly periodicals of all classes—literary, artistic, scientific, trade, technical, and general—and including a number of American, German, and French serials. The admission is free, and no introduction or guarantee is required. In the selection of the books to form the library, efforts have been made to give it a thoroughly representative character, so that students in every department of knowledge will derive advantage from its use. Collections of books relating to Scotland, and particularly to Glasgow and the West, are forming. The "Poets Corner" is believed to contain the largest and most valuable library of Burns and Scottish Poets and Dramatists in existence. Much attention has also been devoted to securing standard works on industrial and technological subjects, from which many persons engaged in manufactures, especially such as include design, derive much advantage.

The number of readers is large, the average number of volumes consulted daily being from 1400 to 1500. The total number issued from the commencement to 22nd March, 1890, was 4,676,509, exclusive of the reading of the periodicals in the magazine room, the references to which are estimated to be not much less in number than the volumes issued.

The library is administered by the following committee of the Town Council, the Hon. the Lord Provost; Councillor Colquhoun, convener; Bailie Graham, sub-convener; Bailie Paton, Deacon-convener T. Mason; Councillors J. Alexander, J. Bell, W. Bilsland, J. U. Primrose, Walter Wilson, William Wilson; F. T. Barrett, librarian; John Ingram, sub-librarian.

# WESTERN INFIRMARY

OF

# GLASGOW.

*(For list of Managers, Medical Officers, and other particulars, see page 140 in the Appendix).*

## STATEMENT AND APPEAL.

I. The Western Infirmary was opened in the beginning of November, 1874, with 200 beds, but by the munificence of the late Mr. John Freeland of Nice, the accommodation was increased to 400 beds at a cost of £40,000. The new addition was opened in 1881, and was at once made available to the public.

II. During the year (ending 31st October, 1890) 33,039 visits were made to the Dispensary by out-door patients. The number of patients treated in the wards was 3604.

The cost for maintenance during the past year was £20,318; and as the ordinary income from all sources during the same period was only £15,090, the necessity for new and increased support will readily be seen. The liberal spirit, however, in which all classes of the community have hitherto supported the Institution gives the Managers confidence in believing that the appeal which they now make will meet with a prompt and generous response.

III. The Managers take the liberty of drawing attention to the subjoined Form of Bequest, in the hope that from this source they may be enabled gradually to accumulate a special fund from the investment of which, in so far as it is not required for contingencies, a considerable supplementary revenue may in time be derived.

## FORM OF BEQUEST TO THE WESTERN INFIRMARY.

I of do hereby leave to the WESTERN INFIRMARY OF GLASGOW, free of legacy duty and charges, a Legacy of* pounds sterling, which I authorise and direct my Executors to pay to the Treasurer or Secretary thereof for the time being, upon his receipt, which shall be a sufficient discharge.

Dated at Glasgow, this* day of Eighteen Hundred and Eighty years.

(*Testator's Signature*).

* Sum and Date to be expressed in words, not in figures.

Funds are required and earnestly solicited for the upkeep of the Infirmary; all Annual Contributions and Donations sent to the Subscribers will be thankfully received and duly acknowledged.

JAMES GRAHAM, Hon. Treasurer.
HENRY JOHNSTON, Secretary.

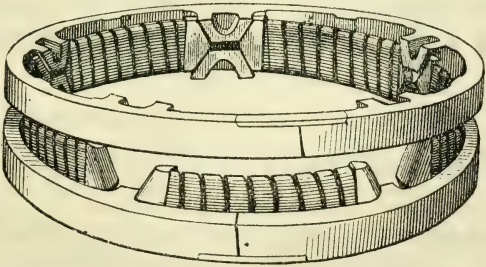
# THE "CLYDE" PISTON RING.

## MENZIES' PATENT.



This packing has all the rigidity required to keep the Cylinder in good order, when fitted to a new bore, or to a job in fair condition.

**Cut in Sections** and fitted to an unequally worn Cylinder—however bad—sufficient compass is obtained to quite fill at the widest part, without affecting the vertical pressure, which remains constant throughout the stroke; the packing by this arrangement is much quicker in its action, and more efficient, than is possible by any application whatever, with a continuous spring, or a single cut ring.

The adjustments are independent, and allow either the vertical or lateral pressure to be increased or diminished as desired.
